School of Education**

RE: SUBJECT WITH GAPS

During the 43rd KESSHA Annual National Conference, it was noted with great concern that there are subjects with gaps.

These subjects are: -

- i. Drawing & Design
- ii. Home science
- iii. Art & Design
- iv. Agriculture
- v. Physical & Chemistry
- vi. Music
- vii. Computer studies

These subjects are lacking the required number of teachers who will be able to adequately provide the correct curriculum based establishment in secondary schools.

The purpose of this letter is to kindly request your universities to put measures to train teachers who can be able to teach these subjects in order to address the gaps.

**DR. NTHAMBURI MUGWUKU
