FORM 3 END TERM 3 EXAMS BIOLOGY PP1

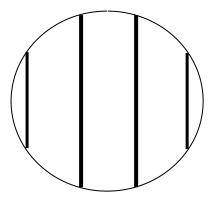

END OF TERM 3 2019	
FORM THREE	
BIOLOGY PAPER 1	
NAME:	CLASS:
1. State three ways in which protein are important to plant.	(3marks)
2. The diagram below represents a cell organelle.	
^	

CZN'N' N'NYS

(a	Identify the organelle.	(1 mark)
(b) Name the part labeled $oldsymbol{B}$.	(1 mark)
(c	State the function of part labeled $\bf A$.	(1 mark)
3.	Define binominal nomenclature .	(1marks)
4.	Name any two problems that animal species overcome by their	dispersion. (2marks)
5.	Explain why tropical forests do not have undergrowth	(2marks)
6.	How is blood pressure generated and maintained in a vein?	(2marks)
7.	What is the function of catalase?	(2marks)
8.	(a) State the important of cross-pollination to flowering plants.	
(b) Ho	ow is self-pollination a disadvantage to flowering plants?	(1mark)

9. What is the role of light energy in autotrophic nutrition in sperm	
10. How is fur important to desert animal, other than in the temperature?	regulation of their (1mark)
11. What are the functions of named product of white blood cells?	(3 marks)
12. Explain three adaptations of cardiac muscles to their function.	(3 marks)

13. A form one student trying to estimate the size of onion cells observed the following on the microscope's field of view.

(a)	Define the term resolving power.	(1 mark)
(b) micro	If the student counted 20 cells across the field of view ometers.	w calculate the size of one cell in (2 marks)
14. W		(1mark)
15. D	Define peristalsis and state its importance in the nutrition	
16.	The diagram below shows part of plant tissue.	
	w x	
(a)	Name cell labeled \mathbf{X} and part labeled \mathbf{W} . \mathbf{X}	(2 marks)
	\mathbf{W}	
17 33	Why is the liver part of the digestive system?	(2 marks)

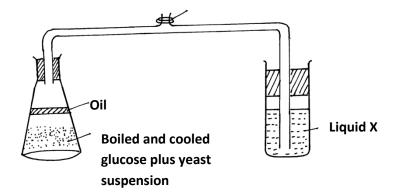

18. State the importance of cytoplasmic filaments in sieve tube elements.	(1 mark)
19. State any two characteristics of populations.	(2marks)
20. Describe any two functions of mitosis?	(2 marks)
21. The diagram below shows the exchange of gases in alveolus.	
(a) State how the alveoli are adapted to their function.	(3 marks)

(1 mark)

(b) Name the cell labeled**A**.

ions from the soil?	(2 marks)
23. The diagram below represents a pyramid of biomass deri Consume producer	
(a) Suggest the type of ecosystem from which the pyramid w	vas derived (1mk)
(b)State the significance of short food chains in an ecosystem	n (1mk)
24. Suggest two reasons for the appearance of glucose in the	urine of a man. (2 marks)
25. (a) State the source Carbon (IV) oxide in aquatic ecosyste	ems. (2 marks)

26. The set up below shows apparatus to demonstrate a certain biological process

(a) What biological process was being investigated in the experiment	(1mk)
(b)Write down a word equation that represents the reaction above	(1mk)
(c) In the above set up, why was it important to boil and cool glucose before (1mk)	adding yeast?
27. What is the homeostatic importance of cuticles of leaves? (21	
28. Outline two functions of parenchyma cells in herbaceous plants. (2	marks)

29. What is the important of diffusion to red blood cells?	(2marks)
30. The diagrams below show a pair of homologous chromosomes. the questions that follow.	Study them and answe
(i)State the phenomenon shown above	(1mk)
(ii) What is the genetic significance of the phenomenon above?	(2mks)
31. Account for the thick wall and narrow lumen of an artery.	(2marks)
32. How do pathogens that enter the body through the respiratory to causing diseases?	
33. Where does the detoxification of ammonia take place in mamm	nals? (1mark)

(2marks)

34. Name the processes that take place in the grana of chloroplast.

35. The experiment illustrated below was set up to investigate a cert using a raw tuber	ain physiological pro
Concentrated glucose solution Raw portanged in the content of the	lled
(a) Suggest a possible physiological process that was being investigation	ated (1mk)
(b) Explain the results obtained in the above experiment after a few	hours (2mks)
(c) State the observations that would have been made if the experim boiled potato	ent was repeated usi (2mks)
36. Name the causative organism of the following diseases	
(i) Malaria	(1mk)
(ii) Bilharzia	(1mk)

FORM 3 END TERM 3 EXAMS

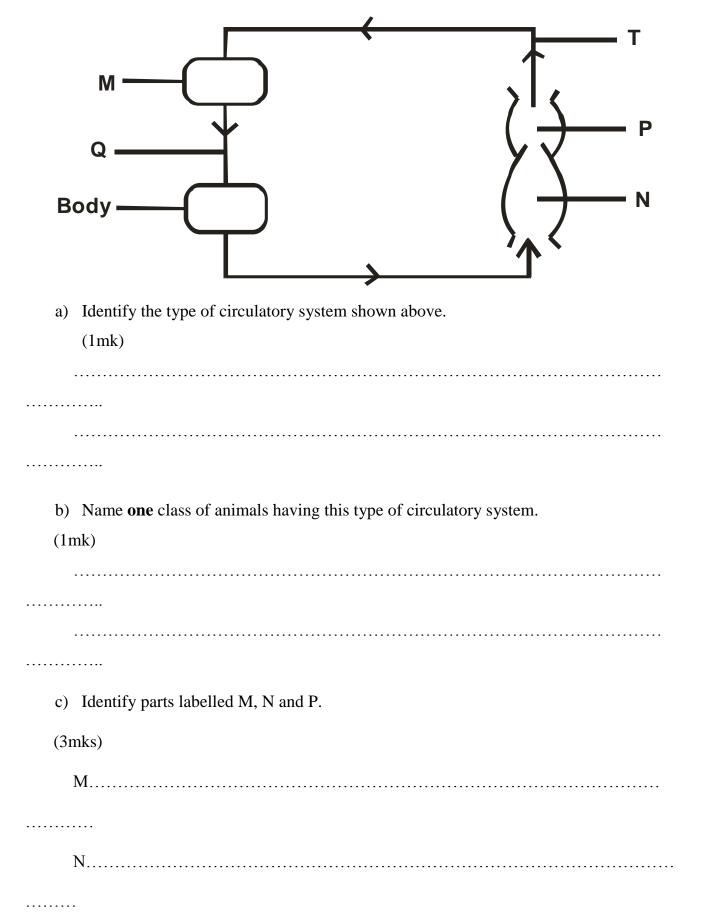

N A	AME: CLASS
	231/2
	BIOLOGY
	TIME: 2 HOURS <u>INSTRUCTIONS TO CANDIDATES:</u> • ANSWER ALL THE QUESTIONS • ANSWERS SHOULD BE WRITTEN IN THE SPACES PROVIDED
1.	A student observed feeding relationship while on a tour in a coastal Island. Eagles feed on small fish, Small fish feed on sea grass, Insect larvae and molluscs feed on sea grass, Insect larvae fed on by small fish, while crabs feed on insect larvae and molluscs.
(3mks	a) From the above information, construct a food web.
	b) In which trophic level is small fish found.
	(1mk)

	c)	Extract a food chain where the Eagle is a tertiary consumer.
	(1mk)	
	d)	Suppose all the crabs were poisoned, what would be the immediate effect in the ecosystem. Give a reason. (1mk)
	(2)	Cive a reason why pyramid of hismass is a hotter representation of anargy flow
in an	(e)	Give a reason why pyramid of biomass is a better representation of energy flow
	(1mk)	eco system than pyramid of numbers.
2.	An ex	periment was set up as shown below.
		Delivery tubes Lime water A
dia	a)	A student blew air in and out through point X. Using arrows indicate on the
	m how	air gets in and out of the set up.
(2mks)	

	b) (1mk)	(i) In which of the test tube would lime water turn milky first.
	(1mk)	(ii) Give a reason.
fast ra	(c) ce.	What is the effect of lactic acid in the thigh muscles of an athlete after a short
(2mks)	
acid is	(d) (1mk)	Identify the type of muscle in human being where formation and effect of lactic not felt.

	(e)	What is the biological significance of boiling milk /ultra heat treated milk.
	(1mk)	
3. The	diagra	m below is a longitudinal section of an organ in mammals
		R Collecting duct
	a)	Name the organ
	(1mk)	Tvame the organ
	••••	
	1.)	
2mks		Identify the parts R and S
ZIIIKS,	,	

c)	i)	State two differences in the structure above found in the deserted- rat
and fish		
		(3mks)
	::\	A appropriate a difference atotal above
(2mlra)	ii)	Account for the difference stated above.
(2mks)		
•••••		
•••••		
•••••		
•••••		
d)	Nam	ne the gland associated with the secretion of aldorsterone hormone.
(1mk)	ı	
4. The diagra	ım be	low represents a circulatory system found in a certain class of chordates.

	P
• • • •	
	d) What disadvantages is faced by having the types of circulatory system shown above? (2mks)
• • • •	
• • • •	
	e) Between blood vessels Q and T, which one carries oxygenated blood?
	(1mk)
• • • •	
Э.	In an experiment to investigate the rate of reaction indicated by the equation.
	$C_{12}H_{22}O_{11} \longrightarrow C_6H_{12}O_6 + C_6H_{12}O_6$
	Sucrose Fructose Glucose
	It was found out that for products fructose and glucose to form, substance "K" was needed. Temperature was maintained at 37°C. When substance "L" was added, reaction slowed and then stopped.
	a) Suggest identity of the substances
	(2mks)
	K
	L

	c) (Other than temperature, state three factures that increase the rate of reaction.
	(3mks)
	d)	Explain how substance "L" slowed the rate of reaction.
(2mk	s)	
	e)	What type of reaction is represented by the equation above?
	(1ml	k)

SECTION B (40 MARKS)

Answer questions 6 (compulsory) and either questions 7 or 8 in the spaces provided questions

6. The glucose level in mg per 100cm³ of blood was determined in two person Y and Z. Both had stayed for six hours without taking food. They were fed on equal amount of glucose at the start of the experiment .The amount of glucose in their blood was determined at intervals .The results are shown in the table below.

Times in minutes	Glucose level in blood in mg/100cm ³		
	Y	Z	
0	85	78	
20	105	110	
30	105	110	
45	130	170	
60	100	195	
80	93	190	
100	90	140	
120	90	130	
140	88	120	

a) On the grid provided, plot graphs of glucose levels in blood against time on the same axes. (7mks)

BUSINESS STUDIES

PAPER ONE

TIME.2hrs

NAME	
1 a) Outline four reasons why organizations ne	eed to safe keep documents in files (4mks)
2. Give the four components of business studies	s (4mks)
2 A hysiness is symposted to be socially response	
	sible to various groups such as customers, employees,
government, public and suppliers. Indicate aga	inst each statement the most appropriate group (5mks)
Statement	Group
i)Fair remuneration	Group
ii)Timely tax returns	
iii)Fairness in tender allocation	
iv)Equal job opportunities	
Quality products	

4.Use the table below to outline four differences between basic wants and secondary wants (4mks)

Basic wants	Secondary wants
5.Identify three activities in the extracti	ive level of production (4mks)
6.Outlinefour ways in which partners m	nay be classified (4mks)
7. Highlight four characteristics of mail	order store (4mks)
8.Outline the meaning of the following	terms as used in accounting (4mks)
i)Network of a business	

ii)Business transaction	
iii)Cash transaction	
vi)Credit transaction	
,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	
O State form main fortens that may limit the level of	for country's notice of income (Ambo)
9.Statefour main factors that may limit the level o	i a country's national income. (4mks)
10.Identify four ways in which a business may be	of benefit to people in the surrounding area (4mks)
11.State the effect of each of the following transactions	ction on the balance sheet by writing increase or
decrease or no effect in each case	
Transaction	Effect
1	

a)Bough	nt machinery on cred	lit		
b)withda	rew cash from the b	usiness for personal		
use				
c)Purcha	ased stock in cash			
d)Paid o	outstanding by chequ	ie		
12.State f	four ways of increas	ing efficiency and effective	veness of human porter	age
13.The fo	ollowing information	n relates to Makuyu Trade	ers. Determine the miss	ing figures. (3mks)
	Assets	Liabilities	Capital	
a)	50000	70000		
b)	320000		280000	
c)		14360	12000

AGRICULTURE PAPER 1 TIME: SECTION A Answer all the questions in this section in the spaces provided. 1. Name two classes of weeds on the basis of the following.			
	b) Plant morphology	(1mk)	
2.	State four reasons for land fragmentation in Kenya.	(2mks)	
3.	Give four advantages of individual owner operator tempractised in Kenya. (2mks)	ure system as	
4.	Give four methods of breaking seed dormancy.	(2mks)	

	State four disadvantages of organic mulch in crop production. Give four practices carried out in a tree nursery.	(2mks) (2mks)
7.	State four reasons for staking tomatoes.	(2mks)
8.	List three methods of treating water for use on the farm.	(1 ½ mks)
9.	Give two examples for each of the following categories of wate a) Metal pipes	r pipes. (1mk)
	b) Hose pipes	(1mk)
10	. What is organic farming?	(1mk)
11	. State four problems that may be brought about by hardpans in	crop land. (4mks)
12	. State four information contained in a land title deed.	(2mks)

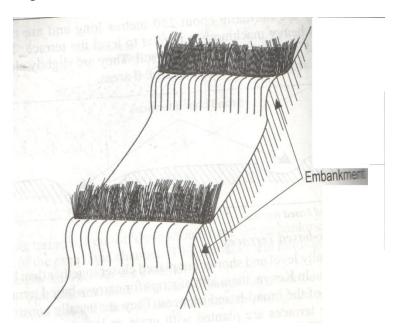

13. Mention the simultaneous processes that lead to the formation of erosional characteristics of a gully. (4mks)

14. State three factors that determine the depth of planting. (1 ½ mks)

SECTION B (20MKS)

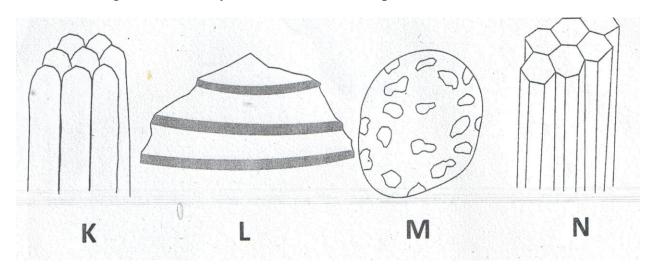

Answer all the questions in this section in the spaces provided.

15. The diagram below shows a soil water conservation structure.

a) Identify the method of soil and water conservation shown in the diagram. (1mk)

- b) State three practices that can be carried out on the above structure to make it stable. (3mks)
- c) State any other structure that can be used in soil and water management. (1mk)
- 16. The diagram K, L, M and N below represents types of soil structures. Study the diagrams carefully and the answer the questions that follow.

a) Identify the soil structures labeled L , N and M. (3mks)

L-

M –

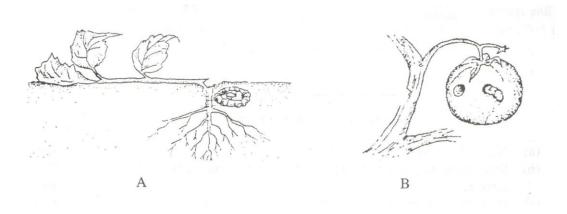

N-

b) Give one difference between soil structure K and N. (1mk)

c) How can the soil structure labeled M be improved? (1mk)

- 17. A plot of land measures 6.6m long by 3.6m wide. This plot is prepared for planting cabbages at a spacing of 60cm by 60cm. the outermost row starts at 30cm from the edges all around the plot. Calculate:
 - a) The number of the rows falling on the width side of the plot.(2mks)
 - b) The number of cabbage seedlings that should be planted on the plot. (3mks)

18. Study the illustrations given below and then answer the questions that follow

- a) Identify the pests shown by illustrations A and B. (1mk)
- b) State two effective methods of controlling each of the pests labeled A and B.A (2mks)

B (2mks)

Section C (40mks)

Answer any two questions from this section in the spaces provided.

- 19. Outline safety precautions when using herbicides. (12mks)
 - b) Outline physical measures that have been employed in the control of pests. (8mks)
- 20. Explain five effects of soil erosion. (5mks)
- b) Describe the field production of tomatoes from transplanting to harvesting. (15mks)
 - 21. Describe advantages of sub-surface irrigation. (7mks)
 - b) Explain contribution of agriculture to National development. (12mks)
 - c) Define agriculture. (1mk)

	PAPER 2			
	TIME:			
Answ	er ALL Questions in this section.			
1.	Give two uses of foot bath in a cattle dip.	(2mks)		
2.	Give four characteristics of exotic cattle that make them not to survive well	ll in arid areas.		
		(2mks)		
3.	Differentiate between roughage and concentrate feeds as used in livestock	nutrition. (2mks)		
		(=====)		
4.	List four reasons for treating timber before roofing farm building.	(2mks)		
5.	Give three problems associated with lambing in sheep.	(3mks)		

6.	Give 2 importance of growing grass around a fish pond.	(2mks)
7.	Outline four qualities of honey.	(2mks)
8.	Outline four maintenance practices that should be carried out on a	hand saw. (2mks)
9.	List four management practices that should be carried out during m	nating season in sheep. (2mks)
10	Give one function of omasum in ruminants.	(1mk)
11.	. State two uses of sickle on the farm.	(2mks)
12.	State four routes of administering vaccines in poultry.	(2mks)

- 13. State three circumstances which would lead a farmer to cull a high producing dairy cow. (3mks)
- 14. Give two best methods of indentifying bulls.

(1mk)

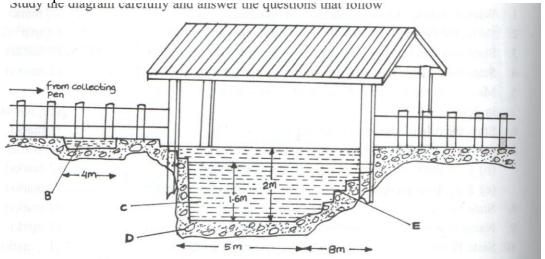

15. Name four materials collected by bees.

(2mks)

SECTION B: 20 MARKS

Answer All Questions in this section.

16. The diagram below illustrates a cross section of a livestock handling structure. Use it to answer questions that follow.

a) Name parts.

(4mks)

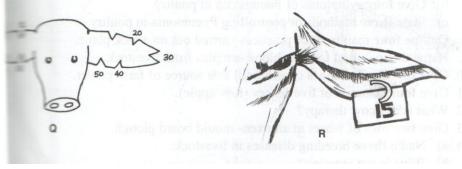

- B -
- C -
- D-
- E-
- b) Give the function of parts.

(2mks)

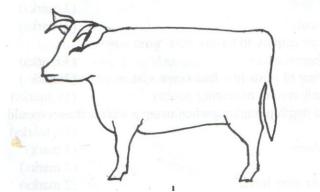

B:-

D:-

17. Diagrams Q and R below illustrate a practice carried out on livestock. Study them and answer questions that follow.

- a) Identify methods Q and R. (2mks)
- b) Give one tool of carrying out practice Q.
- 18. Diagram L below illustrates the external features of a cow. Study it careful and answer the questions that follow.

- a) Using letter T with a pointing arrow indicate four areas where ticks are found. (3mks)
- b) Name two chemical methods of controlling ticks.

(2mks)

(1mk)

c) Name the type of animal giving a reason.

(2mks)

19. A farmer wanted to prepare a 200kg of calf rearing ration containing 20% D.C.P. Using pearson's square method calculate the amount of maize containing 10% DCP and sunflower containing 35% DCP the farmer would need to prepare the ration.

(4mks)

SECTION C: (40 MARKS)

Answer any TWO questions in this section.

20. (a) Describe four methods used in fish preservation prior to marketing.

(8mks)

(b) State four advantages of embryo transplant.

(4mks)

(c) Describe four disease predisposing factors in livestock.

(8mks)

(a) Compare and contrast ruminants and non-ruminants.(b) Describe five uses of water in the animal's body.

(10mks) (10mks)

22. (a) Describe five possible uses of a crush.

(5mks)

(b) Explain five importance of dehorning animals.

(10mks)

(c) State five reasons for swarming of bees.

TIME: 2.5 HRS ANSWER ANY FIVE QUESTIONS

- **1a)** Describe activities that took place during dedication of Jesus in the Temple (LK 2:22-40)(8mks)
- **(b)** Outline seven lessons Christians learn from the incident when Jesus was left behind by his parents in the Temple. (Luke 2: 41 52). (7 mks)
- (c) State five ways in which Christians show respect to places of worship in Kenya today. (5 mks)
- **2.** (a) With reference to the sermon on the plain, state six teachings of Jesus on how human beings should relate to one another. (6 mks)
 - **(b)** Describe the incident in which Jesus calmed the storm. (Luke 8: 22 25). (7 mks)
- (c) Identify virtues that Christians learn from the miracle of the feeding of the five thousand. (7 mks)
- **3.** (a) State five accusations that were made against Jesus during his trial. (Luke 22: 66 -23: 1-23).(5mks)
 - **(b)** Give reasons why Jesus appeared to His disciples after resurrection. (7 mks)
 - (c) Why should Christians be discouraged from taking part in mob justice? (8mks)
- **4.** (a) Explain the teaching of Peter concerning the people of God (1st Peter 2: 9 10) (8mks)
- (b) Give ways through which Christians can promote unity among themselves in Kenya today. (7mks)
- (c) State how kindness as a fruit of the Holy Spirit is abused in the Church in Kenya today. (5mks)
- **5 a**) Outline the events that took place at Jesus entry into Jerusalem (Luke 19:28-40. (7mks)
- (b) State what the two disciples to Emmaus discussed about Jesus. (6mks)

- (c) Explain how unity is demonstrated in Kenyan churches today. (7mks)
- **6 a)** Explain the teaching of Jesus on prayer (7mks)
- **(b)** State the occasions when Jesus prayed (7mks)
- (c) Why do some Christians find it hard to pray ?(6mks)

FORM 3 END TERM 3 EXAMS

	102/1	

KISWAHILI

INSHA KARATASI YA 1 MUDA: SAA 1 34

MAAGIZO:

- Andika Insha mbili. Insha ya kwanza ni ya lazima.
- Kisha chagua insha nyingine moja kati ya hizo tatu zilizobaki.
- Kila insha isipungue maneno 400.
- Kila insha ina alama 20.

MASWALI:

- 1. Wewe ni katibu wa kamati ya maslahi ya klabu ya wasanii chipukizi mtaa wa Rehema. Andika kumbukumbu za mkutano uliofanywa hivi karibuni kujadili suala la usalama uliozorota.
- 2. Mfumo wa elimu nchini Kenya una kasoro nyingi na unafaa kufanyiwa mabadiliko. Eleza.
- 3. Andika kisa kinachodhihirisha maana ya methali: Ujana ni moshi ukienda haurudi.
- 4. Tunga kisa kinachomalizika kwa maneno haya: '...... Hapo ndipo iliponipambazukia kuwa nilikuwa naogelea baharini pekee, kinyume na wenzangu wote.

SEHEMU A.UFAHAMU (ALAMA 15)	
Soma makala yafuatayo kisha kisha ujibu maswali:-	
Waajiri wengi wanazilaumu taasisi za elimu kwa kukosa kutoa wafanya kazi wenye ujuzi to hasa wa kiteknolojia za kisasa kama kutumia kompyuta kutenda kazi mbalimbali. Hali hii imekuwa ya kuhuzunisha sana. Ujuzi wa kuweza kutumia Kompyuta unaweza kumfaa mwanafunzi hata anapokosa nafasi kujiunga na chuo kikuu kwa vile anaweza kuendelea na elimu yake kupitia kwa elimu mtan Pia anaweza kufanya utafiti wa kina kupitia intaneti na kwa njia hii akaimarisha elimu yake Mojawapo ya njia ya kuimarisha elimu kuhusu maswala ya teknolojia ni kuanzishwa kwa miikakati mipya ya kufunza. Somo la Kompyuta laweza kuimarika mashuleni endapo kwan walimu watahamasishwa juu ya faida za ujuzi huu. Kwa kutumia Kompyuta kufunza, walimu wanaweza kufunza madarasa kadhaa katika kipir kimoja bila kulazimika kuyahudhuria. Hii itapunguza kiwango cha kazi kwa walimu kwa viwatapata muda wa kufanya utafiti mpana. Aidha, watapata habari na ufahamu zaidi wa ma kwa kutumia mitambo ya Kompyuta kutoka kwenye intaneti, kupitia tovuti. Hata hivyo mipango hii inakabiliwa na changamoto kama vile bei za juu za mitambo na vif vya Kompyuta, ukosefu wa miundo msingi itakayowezesha utumiaji wa mitambo hii na uko wa walimu waliohitimu somo la Kompyuta. Pia, kuna tatizo la ukosefu wa nguvu za umeme hasa maeneo ya mashambani; vile vile, kati maeneo yaya haya, wanafunzi na wazazi wengi huvichukulia somo la Kompyuta kuwa gumlinalofaa wakaazi na wanafunzi kutoka maeneo ya mijini na linalofaa wakaazi muhimu kw mashambani. Maswali (a) Ipe taarifa uliyoisoma anwani inayoifaa AL.2	ya dao. za ndi ile mbo aa osefu ika nu na ao

(c) Ujuzi wa kutumia Kompyuta unaweza kumfaidi vipi mwanafunzi? AL.4

(d) Mikakati mipya ya kuimarisha elimu kuhusu maswala ya teknolojia inakabiliwa na vizingiti vipi? AL.3
(e) Taja manufaa mawili ambayo mwalimu anaweza kupata kutokana na ujuzi wa teknolojia ya Kompyuta AL.2
(f) Andika msamiati mwafaka zaidi kwa maneno yafuatayo: AL.2 (i) Kompyuta
(ii) Intaneti

SEHEMU B.UFUPISHO (ALAMA 15)

Soma taarifa hii kisha ujibu maswali

Umaskini ni tatizo sugu katika jamii. Binadamu wengi hujikuta katika hali hii kwa sababu hawakubahatika kusoma. Baadhi yao huenda walijaribu kusoma wakashindwa mapema kujipandisha kielimu. Ukosaji wa elimu huchangia sana katika kukuza ukata. Elimu huweza mtu kupata tonge kwa kujipatia kazi za kumwezesha kuyakidhi mahitaji ya maisha. Hali kadhalika, elimu humsaidia binadamu kupata maarifa mengi ya kutendea shughuli zake za kimaendeleo. Kwa mfano, kama ni wakulima wanaweza kutumia **pembejeo** zifaazo ili kuboresha uzalishaji wa mazao. Wakulima wenye elimu hawatapendelea njia duni za kuendeleza kilimo kama vile kutumia visagilima na mbinu nyingine za kijadi. Badala yake watatumia njia za kisasa za kuvunia mazao yao.

Umaskini mwingine huwa mwiba wa kujichoma. Baadhi ya watu ni mikunguni. Kulaza damu kwao kunawafanya kuwa wategemezi katika familia na jamii kwa jumla. Kwa vile hawajazoea

kuinamia cha mvunguni, hata wakifunzwa kuchakura hawawezi. Ili kujaribu kuutibu uwele wao na ufukara baadhi yao hutafuta njia za mkato kama vile upwekuzi wa vitu vya wale waliojitahidi. Wakifanikiwa huweza **kufurisha vibindo vyao.** Hata hivyo mkono mrefu wa walinda usalama ukiwakumbatia wao hubakia kusagika kwa dhiki isiyomithilika ndani ya magereza.

Majanga ya kimaumbile kama vile mitetemeko ya ardhi, mikurupuko ya maradhi hatari, moto, ukame na mafuriko huchangia na kuzidisha umaskini. Matukio hayo yakiandama kidindia watu wengi huhasirika. Licha ya mali nyingi kupotea, manusura huachwa wakiwa maskini hohehahe. Matumizi yao hupotea kwani wengi huhitajika kuanza maisha upya.

Vijana ni nguzo muhimu katika maendeleo ya nchi yoyote ile. Endapo watajiingiza katika uraibu wa dawa za kulevya, wataathirika wao wenyewe na jamii kwa jumla. Pamoja na kuwa vijana hawa hufuja pesa nyingi katika ununuzi wa dawa hizi, dawa zenyewe huwadhoofisha na kuwapoka nguvu za kushiriki katika uzalishaji mali. Kutokana na hali hii,umaskini hupaliliwa na kushamiri zaidi.

Umaskini huzua matatizo mbalimbali katika jamii. Ufukara huchachawiza juhudi za serikali za kuwapa raia wake mahitaji ya kimsingi kama vile huduma za afya. Pia umaskini husababisha maovu mbalimbali ya kijamii kama vile mauaji na ukahaba.

Baadhi ya wanajamii huona kwamba njia ya kipekee ya kukabiliana na changamoto zinazosababishwa na hali ya ulitima ni kupitia kwa biashara haramu. Hali hii huchochea zaidi kudorora kwa maadili ya kijamii.

Mataifa mbalimbali ulimwenguni yamezua mikakati mahsusi ya kukabiliana na umaskini. Baadhi ya mataifa yamebuni utaratibu maalum wa kupunguza mwanya mkubwa uliopo kati ya matajiri na maskini. Mojawapo ya mipango hiyo ni kupandisha viwango vya kodi inayotozwa wenye mishahara minono na wafanyibiashara wenye pato kubwa. Aidha huduma za burudani hutozwa kodi ya kiwango cha juu. Kupitia kwa kodi hizo, na njia nyinginezo, serikali za nchi hizo hupata pesa za kuwahudumia maskini.

Mataifa yanayoendelea yanaweza kuwakwamua wananchi kiuchumi kwa kuwapa wahitaji mitaji ya kuanzisha miradi mbalimbali ya kimaendeleo. Mifano ya miradi hiyo ni viwanda vya 'Jua kali', ususi wa vikapu na uchongaji wa vinyago. Hali kadhalika, serikali inaweza kuwatafutia masoko ya nje wafanyi biashara wadogo wadogo. Aidha, serikali inaweza kupunguza ushuru kwa bidhaa zinazoagizwa na masoko ya nje wafanyibiashara wa aina hiyo. Mathalan, ushuru unaotozwa nguo kuukuu zinazoingizwa nchini ukipunguzwa, wauzaji wa nguo hizi watafaidika zaidi na hali ya umaskini itaendelea kupungua.

Sehemu za mashambani ni mhimili mkubwa wa uchumi. Ingawa kumekuwa na juhudi za kuzistawisha sehemu hizi kwa kusambaza huduma za umeme na maji kwa gharama nafuu, bado hali haijawa ya kuridhirisha. Ili kuimarisha sehemu hizi na kukabiliana vilivyo na tatizo la umaskini, hatuna budi kusambaza huduma hizi hasa katika sehemu kame. Sehemu hizi zikipata maji, kilimo chenye natija kitaendelezwa na umaskini utakuwa karibu kuzikwa katika kaburi la sahau. Ikiwa tutazitekeleza sehemu hizi, vijana wanaoweza kusistawisha watahamia mjini kutafuta maisha 'bora'. Hali hii itazidisha msongomano wa watu mjini.

Umaskini ni nduli ambaye lazima aangamizwe ima fa ima. Vijana hawana budi kubadili mtazamo wao hasa kuhusu kazi za mashambani na kujitahidi kuimarisha kilimo. Fauka ya hayo, mifumo mwafaka ya elimu ibuniwe ili kukidhi mahitaji ya kiuchumi ya taifa. Badala ya kuhimiza elimu ya kinadharia, elimu tekelezi isisitizwe zaidi ili wale wanaokosa kazi za kiafisi waweze kujiajiri katika kazi za kiufundi. Ukusanyaji wa ushuru uimarishwe zaidi. Hali ya usalama iendelee kustawishwa ili kuzidi kuwavutia wawekezaji, na hivyo kubuni nafasi zaidi za kazi.

	(i) Amekata mti mtima ?
	(ii) Amepita nyuma ya Punda (al.2)
e)	Toa mifano 2 ya uhuru wa mashairi kwa kurejelea mashairi haya
f)	Kwa kurejelea shairi ' B ' eleza maana ya:-
	(i) Mzigo
	(ii) Siri
	(iii) Kula nimekula
	(iv) Niko nyuma ya wakati
	Soma hadithi hii halafu ujibu maswali .

Hapo zamani za kale, Mungu alituma wajumbe wawili waende duniani. Wajumbe hawa ni Kinyonga na Mjusi. Kwanza alimtuma Kinyonga na kumwagiza akaseme "wanadamu hamtakufa." Kinyonga alienda kwa mwendo wa kuduwaa, akasimama hapa na pale akila matunda ya miti. Kwa sababu ya hali hii alichelewa sana kufikisha ujumbe kwa binadamu.

2.

Baada ya muda kupita, Mungu alimtuma Mjusi na ujumbe akaseme, "Mwanadamu sharti kufa." Mjusi aliunyanyua mkia akafyatuka pu! Mbio akawahi duniani kabla ya kinyonga kuwasili. Kwa haraka alitangaza agizo kuu, "Wanadamu sharti kufa!" Akarejelea haraka kwa Mungu. Baada ya muda kinyonga naye akafika duniana na kutangaza, "Wanadamu hamtakufa!" Wanadamu wakapinga mara na kusema, "La! Tumeshapata ujumbe wa Mjusi, wanadamu sharti kufa! Hatuwezi kupokea tena neno lako! Basi kulingana na neno la mjusi, wanadamu hufa.

<u>Maswali</u>	
(a) (i) Hadithi hii huitwaje?	
(ii) Toa sababu zako	
(b) Eleza sifa tatu zinazohusishwa na ngano za fasihi simulizi katika hadithi hii	
(c) Kinyonga ni mhusika wa aina gani?	
(d) Hadithi hii ina umuhimu gani?	
(e) Taja njia zozote nne za kukusanya kazi za fasihi simulizi	
(f) Tambulisha vipera hivi:-	
(i) Kula hepi	
(ii) Sema yako ni ya kuazima	
(iii) Baba wa Taifa	
 3. "Nilijua ni utoto tu" (a) Fafanua muktadha wa dondoo hili 4) 	(alama
(b) Eleza sifa na umuhimu wa mnenaji 20)	(alama
4. Onyesha jinsi uongozi mbaya unavyojitokeza katika tamthilia ya Kigogo. 20)	(alama

This paper consists of 16 printed pages. Candidates should check carefully to ascertain that all the pages are printed as indicated and no questions are missing.

SECTION I (50 MARKS)

Answer all questions in this section in the spaces provided.

1. Without using a calculator, evaluate

 $\frac{\frac{3}{4}+1\frac{5}{7}\div\frac{4}{7}of2\frac{1}{3}}{\left(1\frac{3}{7}-\frac{5}{8}\right)x\frac{2}{3}}$ Giving your answer as mixed fraction (3mks)

2. Two boys and a girl shared some money. The younger boy got $\frac{5}{18}$ of it; the elder boy got $\frac{7}{12}$ of the remainder and the girl got the rest. Find the percentage share of the younger boy to the girl's share.

(4mks)

3. Three numbers, 1400,1960 and $\bf n$ have a G.C.Dand L.C.M of 70 and 2^2 x 5^2 x 7^2 x 11 respectively. Find the least possible value of **n** (3mks)

4. A bus starts off from Kitale at 9. a.m and travels towards Kakamega at a speed of 60km/hr. At 9.50 a.m, a matatu leaves Kakamega and travels towards Kitale at a speed of 60Km/h. How far from Kitale will the two vehicles meet?

(3mks)

5. Find the equation of a straight line which is equidistant from the points A(2,3) and B(6,1) (3mks)

6. Simplify the expression completely (3mks)

$$\frac{12x^2 - 16x}{20 - 11x - 3x^2}$$

7. Given that $\sin \theta = \frac{2}{3}$ and θ is an acute angle, find without using tables $\tan^2 \theta + \cos^2 \theta$. Give your answer as a mixed fraction. (3mks)

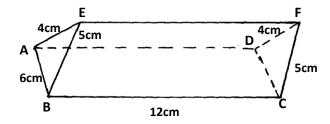

8. Solve for *y* in the equation below. (4mks)

$$8(2^2)^y = 6(2^y) - 1$$

9. Using a ruler, a pair of compasses only and (proportional) a set square, construct on the upper side division of line **BC**, a line **BD** such that ∠**DBC** = 37.5°. Use the line **BD** to divide **BC** into 4 equal portions.

(3mks)

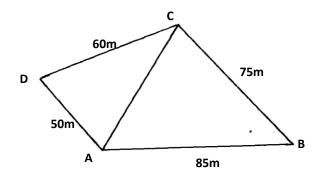

10. Sketch the net of the solid below. (2mks)

11. In a regular polygon, each interior angle is x^o and each exterior angle is $\left(\frac{x-36}{3}\right)^o$

- (i) Find angle X^o (1mk)
- (ii) Find the number of sides of the polygon (2mks)

12. The figure below represents a plot of land **ABCD** such that **AB**= 85m, **BC** 75m **CD**= 60m **DA** = 50m and angle **ACB** = 90° . (not drawn to scale)

Determine the area of the plot, in hectares correct to two decimal places. (4mks)

13. An open rectangular box measures externally 32cm long, 27cm wide and 15cm deep. The box is made up of metal 1cm thick. If it has a mass of 1.5kg, what is the density of the box to 4 significant figures?

(3mks)

14. Find the integral values of x which satisfy the following inequalities; 2x + 3 > 5x - 3 > -8 (3mks)

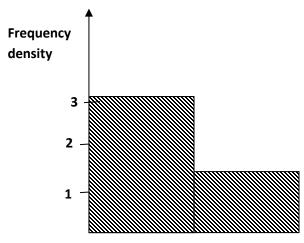

15. A Kenyan bank buys and sells foreign currency as shown below.

	Buying Ksh	Selling Ksh
1 US dollar (\$)	63.00	63.20
1 UK pound (£)	125.00	125.95

A tourist arrived in Kenya with £ 9600 which he converted into Kshs at a commission of 5%. He later used $\frac{3}{4}$ of the money before changing the balance of dollars at no commission calculate; to the nearest dollar, the amount he received. (3mks)

16. The histogram shown below represents the distribution of marks obtained in attest. The bar marked A has a height of 3.2 units while **B** has aheight 1.2 units. If the frequency of the class represented by **B** is 6, find the frequency of the bar represented by **A**.

(3mks)

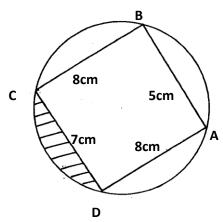

FOR MARKING SCHEMES CALL/TEXT/WHATSAPP 0705525657

SECTION II (50 MARKS)

Answer any five questions in this sections in the spaces provided.

17. The figure below (not drawn to scale) shows a quadrilateral **ABCD** inscribed in a circle. **AB** = 5cm, **BC** = 8cm, **CD** = 7cm and **AD** = 8cm. **AC** is one of the diagonals of length 10cm.

(a) Find the size of angle **ABC**. (3mks)

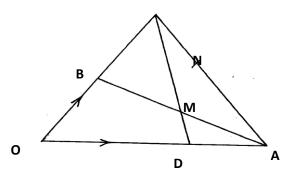

(b) Find the radius of the circle. (2mks)

(c) Hence, calculate the area of the shaded region. (5mks)

18. In the figure below $\overrightarrow{OB} = \mathbf{b}$, $\overrightarrow{OC} = 3\overrightarrow{OB}$ and $\overrightarrow{OA} = \mathbf{a}$

(a) Given that $\overrightarrow{OD} = 1/3$ \overrightarrow{OA} and $\overrightarrow{AN} = \frac{1}{2}$ \overrightarrow{AC} , \overrightarrow{CD} and \overrightarrow{AB} meet at M. Determine in terms of **a** and **b**

(i) \overrightarrow{AB} (1mk)

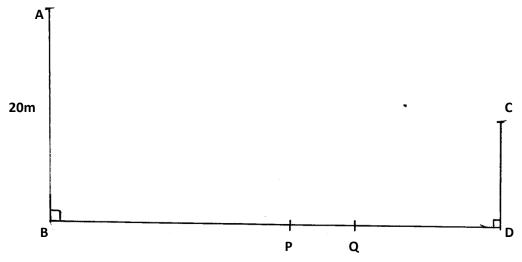

$$(ii)$$
 \overrightarrow{CD} $(1mk)$

(b) Given that $\overrightarrow{CM} = k \overrightarrow{CD}$ and $\overrightarrow{AM} = h \overrightarrow{AB}$ determine the values of the scalars k and h (5mks)

(c) Show that O , M and N are collinear. (3mks)	
19. Three variables p, q and r are such that p varies directly as q and inversely a. When $p = 18$, $q = 24$ and $r = 4$.	
Find p when $q = 30$ and $r = 10$.	(4mks)
b. Express q in terms of p and r.	(1mk)
c. If p is increased by 20% and r is decreased by 10% find:i. A simplified expression for the change in q in terms of p and r.	(3mks)
ii. The percentage change in q.	(3mks)
n. The percentage change in q.	(SIIIKS)

that of the lawn. (a) Calculate the radius of the lawn.	(4 marks)
(b) Given further that the path surrounding the lawn is fenced on both on posts at intervals of 10 metres and 11 metres on the inner and o	
Calculate the total number of posts required for the fence.	(4 marks)
() G 1 1 1 1 1 1 1 1 1	(2
(c) Calculate the total cost of the posts if one post costs sh 105.	(2 marks)

21. The diagram below represents two vertical watch – towers **AB** and **CD** on a level ground. **P** and **Q** are two points on a straight road **BD**. The height of the tower **AB** is 20m and road **BD** is 200m

(a) A car moves from **B** towards **D**. At point **P**, the angle of depression of the car from points **A** is 11.3°Calculate the distance **BP** to 4 significant figures.

(2mks)

(b) If the car takes 5 second to move from $\bf P$ to $\bf Q$ at an average speed of 36km/hr, calculate the angle of depression of $\bf Q$ from $\bf A$ to 2 decimal places. (3mks)

(c) Given that QC = 50.9 cm, calculate
(i) The height of CD in meters to 2 decimal places;
(2mks)

	Mathematics	
	Paper 2	
	2 ½ Hours	

- The paper contains two sections; section I and II.
- Answer *all* the questions in section I and any five questions from section II.
- All answers and working **Must** be written on the question paper in the spaces provided below each question.

Write your **name** and **indexnumber** in the spaces provided at the top of the page.

- Non- programmable silent electronic calculators and **KNEC** mathematical tables may be used except where stated otherwise.
- Mark may be given for correct working even if the answer is wrong. .

For Examiners Use Only

INSTRUCTIONS TO CANDIDATES

Section I

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	Total

SectionIIGRAND TOTAL

Question	17	18	19	20	21	22	23	24	Total

This paper consists of 16 printed pages. Candidates should check to ascertain that all pages are printed as indicated and that no questions are missing.

SECTION I (50 MARKS)

Answer all questions in this section in the spaces provided.

1. Use logarithms in all steps to evaluate.

(4mks)

$$\frac{2.53^2 \, x83.45}{\sqrt{0.4562}}$$

2. By using completing square method, solve for x in $4x^2 - 3x - 6 = 0$

(3mks)

3. Make **p** the subject in
$$T = \sqrt[3]{\frac{p^2 + n}{m^2}} + R$$

(3mks)

4. If
$$\frac{\sqrt{14}}{\sqrt{7} - \sqrt{2}} - \frac{\sqrt{14}}{\sqrt{7} + \sqrt{2}} = a\sqrt{7} + b\sqrt{2}$$

Find the value of **a** and **b** where **a** and **b** are rational numbers. (3mks)

5. (a) Find the first three terms in ascending powers of x of $(2-x)^5$ (1mk)

(b) Hence find the value of the constant \mathbf{k} , for which the coefficient of \mathbf{x} in the expansion of $(k+x)(2-x)^5$ is -8 (2mks)

6. $\mathbf{OA} = 3\mathbf{i} + 4\mathbf{j} - 6\mathbf{k}$ and $\mathbf{OP} = \mathbf{i} + 15\mathbf{k}$. \mathbf{P} divides \mathbf{AB} in the ratio 3:-2. Write down the coordinates of \mathbf{B} . (3mks)

7. Simplify

(3 marks)

$$\frac{p^2 - 2pq + q^2}{p^3 - pq^2 + p^2q - q^3}$$

8. Find the relative error in the area of a parallelogram whose base is 8cm and height 5cm. (3mks)

9. (a) Find the inverse of the matrix $\begin{pmatrix} 4 & 3 \\ 3 & 5 \end{pmatrix}$ (1 mark)

(b) Hence solve the simultaneous equation using the matrix method **(2** marks)

$$4x + 3y = 6$$
$$3x + 5y = 5$$

- 10. A straight line L₁ has its X intercept a = -3 and its y-intercept b = 5.

 a) Write the equation of L₁ in the form $\frac{x}{a} + \frac{y}{b} = 1$ (1*mks*)
 - b) Find the equation of another line L2 which passes through (1, -2) and is perpendicular to L_1 (3mks)

11. Use reciprocals, squares and square root tables only to evaluate (3mks)

$$\frac{2}{(0.5245)^2} - \frac{5}{\sqrt{363.4}}$$

12. Using a ruler and a pair of compasses only construct triangle ABC such that BC=6cm, <ABC=75° and BCA=45°. Drop a perpendicular to BC from A to meet BC at O hence find the area of triangle ABC (3mks)

13. A two digit number is such that the difference between the ones digit and the tens digit is 2. If the two digits are interchanged, the sum of the new and the original number is 132. Find the original number

(3mks)

14. A quantity P varies partly as the cube of \mathbf{Q} and partly varies inversely as the square of \mathbf{Q} . when $\mathbf{Q} = 2$, $\mathbf{P} = 108$ and when $\mathbf{Q} = 3$, $\mathbf{P} = 259$. Find the value of \mathbf{P} when $\mathbf{Q} = 6$. (3mks)

15. Solve for *y* in the following equation below: (4mks)

 $\log_4 y + \log_y 4 = 2$

16. Obtain the values of x for which the matrix is singular

$$\begin{pmatrix}
3mks
\end{pmatrix}
\begin{pmatrix}
x^3 & x \\
1 & 1
\end{pmatrix}$$

SECTION II (50 MARKS)

Monthly taxable income	Rate of tax(Ksh/£)	Answer any five questions in
$ \begin{array}{r} 1 - 435 \\ 436 - 870 \\ 871 - 1305 \\ 1306 - 1740 \end{array} $	2 3 4 5	this sections in the spaces provided. 17. The table below shows income tax rates.
Excess over 1740	0	

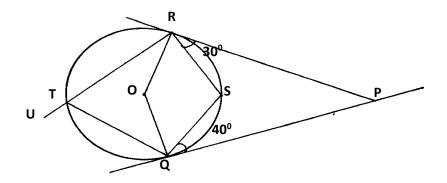

An employee earns a monthly basic salary of sh. 30,000 and is also entitled to taxable allowances amounting to Ksh. 10,480.

(a) Calculate the gross income tax (4mks)

(b) The employee is entitled to a personal tax relief of Ksh. 800 per month. Determine the net tax.(2mks)

- (c) If the employee received a 50% increase in his total income, calculate the parentage increase on the income tax.

 (4mks)
- 18. In the figure below, **O** is the centre of the circle. **PQ** and **PR** are tangents to the circle at **Q** and **R** respectively. \angle **PQS** = 40 and \angle **PRS** = 30⁰. **RTU** is a straight line.

Calculate by giving reasons

(a) ∠QRS

(2mks)

(b) ∠RTQ

(2mks)

(c) ∠RPQ (2mks)

- (d) Reflex $\angle QOR$ (2mks)
- (e) \angle **TRO** given that **TR** = **TQ** (2mks)

- 19. Three darts players Jane, Kelly and Brony are playing in a completion the probability that Jane, Kelly and Brony hit the bull's eyes is $\frac{1}{5}$, $\frac{2}{5}$ and $\frac{3}{10}$ respectively.
 - (a) Draw a probability tree diagram to show all the possible outcomes for the players. (4mks)

- (b) Calculate the probability that :
 - (i) Jane or Brony hit the bull's eye. (2mks)

(ii) All the three fail to hit the bull's eye. (2mks)

(iii) Only two fails to hit the bull's eye. (2mks)

- 20. Three towns \mathbf{X} , \mathbf{Y} and \mathbf{Z} are such that \mathbf{X} is on a bearing of 120⁰ and 20km from \mathbf{Y} . Town \mathbf{Z} is on a bearing of 220⁰ and 12cm from \mathbf{X}
- (a) Using a scale of 1cm to represent 2km, show the relative position of the places (3mks)
 - (b) Find;
 - (i) The distance between ${\bf Y}$ and ${\bf Z}$

(2mks)

- (ii) The bearing of X from Z
- (1mk) (iii) The bearing of \mathbf{Z} from \mathbf{Y}

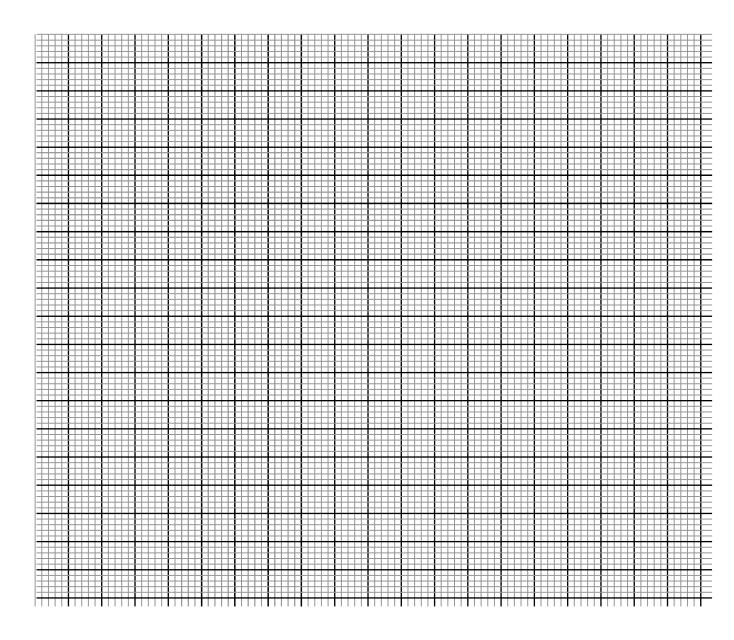

(1mk)

(iv) The area of the figure bounded by **XYZ**

(3mks)

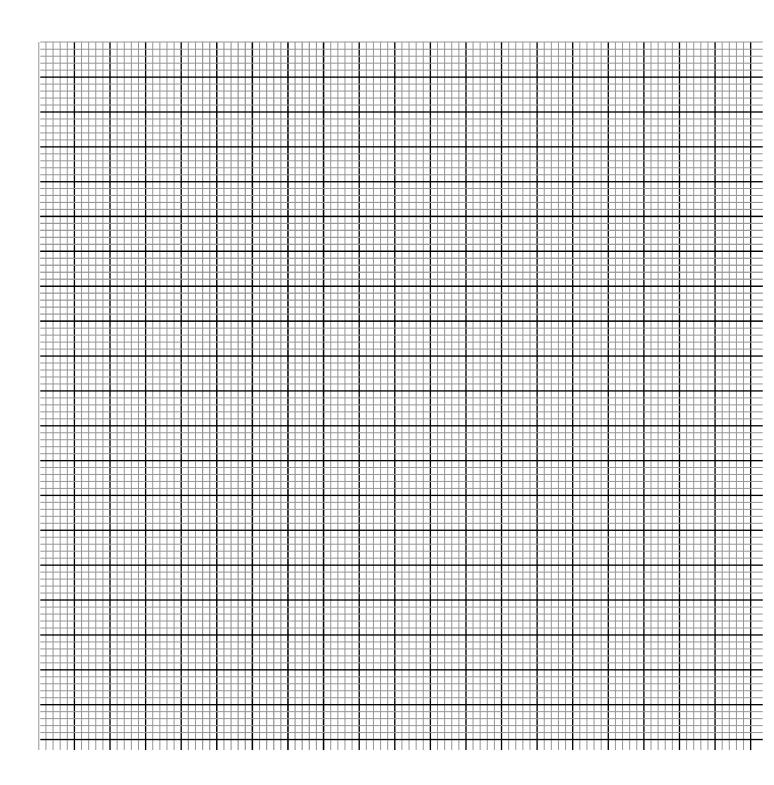

21. The fourth, seventh and sixteenth term of an arithmetic progression are in geometric progression. The sum of the first six terms of the arithmetic progression is 12. Determine the(a) First term and the common difference of the arithmetic progression. (6mks)
(b) Common ratio of the geometric progression. (2mks)
(c) Sum of the first six terms of the geometric progression. (2mks)

22. Draw the graph of $y = 2x^2 - 3x - 5$ taking the values of x in the interval $-2 \le x \le 4$. (5mks)

- (a) Use the graph in to solve the equation $2x^2 3x 5 = 0$ (2mks)
- (c) Using a suitable straight line, solve the equation $2x^2 5x 3 = 0$ (3mks)

- 23. Draw the quadrilateral with vertices at \mathbf{A} (-6,-1) \mathbf{B} (-6,-4) \mathbf{C} (3,-7) and \mathbf{D} (3,2).
 - a) On the same grid draw the image of **ABCD** under enlargement centre (0,-1) scale factor $^1/_3$ label the image ${\bf A^1~B^1~C^1~D^1}$ (3mks)
 - b) Draw $A^{11}B^{11}C^{11}D^{11}$ the image of $A^1B^1C^1D^1$ under rotation of +ve 90° about (1,0) (2mks)
 - c) Draw $\mathbf{A}^{111}\mathbf{B}^{111}\mathbf{C}^{111}\mathbf{D}^{111}$ the image of $\mathbf{A}^{11}\mathbf{B}^{11}\mathbf{C}^{11}\mathbf{D}^{11}$ under a reflection in the line y-x = 0 (2mks)
 - d) Draw $A^{1V}B^{1V}C^{1V}D^{1V}$ the image of $A^{111}B^{111}C^{111}D^{111}$ under translation (2 ₃) and write the co-ordinate of the final image. (3mks)

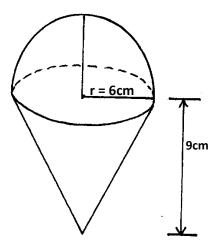

- 24. The volume of two similar solid cylinders are 4096cm³ and 1728cm³.
 - (a) If the curved surface area of the smaller one is 112cm². Find the height of the larger cylinder if the radius is 7cm.

(4mks)

b) The diagram below represents a solid made up of a hemisphere mounted on a cone. The radius of

the hemisphere and cone at

ne cone is 9cm.

Calculate the volume of the solid. Take $\pi = \underline{22}$ (6mks)

ENGLISH

Paper 1
(Functional writing, cloze test and oral skills.)
2 Hours.

- 1. You are the secretary of Umoja Faith Church Youth Group. The group is planning to hold a meeting on 16th August 2015 whose main agenda will be the Mission Outreach and initiating income generating activities. The constitution stipulates that there must be a 21-day notification of the meeting.
 - i) Write a notice of the meeting that will be sent to the members. 6 marks
 - During the meeting, 8 members were present, 3 including the treasurer sent apologies and the whereabouts of 2 members were unknown. The youth pastor attended the meeting. Apart from the main issues, members raised some matters from the previous meeting. There were also some personal issues raised by some members.

Write down the minutes of the meeting. 14 marks

2. Read the passage below and complete each blank space with an appropriate word 10 marks
Citizens used to i) that political leaders would observe the principles o
good governance simply ii)they were expected to. iii); i
appears most leaders on the continent have replaced integrity with reckless impunity that has
iv) Africa in chaos. v)office are also supposed to be vi)
to the people that entrusted them with the vii)of leading them
viii), the political elite in the continent see people as a means to an end
In many countries these days, Kenya included, politics has become the easiest way to make money
Electioneering is seen as an ix)with extremely lucrative returns when campaign
loyalties are x)with appointments in the government of the day.
3. a) Read the following Ankole song and answer the questions that follow.
Suck and I hide you, my gentle one Suck and I hide you, my beloved

I dreamt that the hunt was at Buganga Where, oh where, shall I put, my little baby? little lips? If I put you in a clump of grass, my gentl	I dream that the hunt was at Ngara Where, oh where, shall I put you, e one The hunters' rough dog	my lovely

	NAMEADNCLASS
	ENGLISH
	PAPER 2
	TIME 2hrs 30 mins
Atı	tempt all the questions
1.	Read the passage below and answer the questions that follow. (20mks)
	One good thing about music, Bob Marley sang in Trenchtown Rock, is when it hits you, you feel no pain – but for South Africa's apartheid regime, the opposite was true as it felt the wrath of musicians who composed protest songs against its oppressive policies.
	During the apartheid years, music was more than a solace – it was a "weapon of struggle" used against the aggressor whose only recourse was to ban it from the airwaves, but never from the hearts of the millions who were oppressed.
	Music had always been used to soothe souls during sufferance and it is said that it is slavery that gave birth to (heavy metal) rock when slaves used their shackles or tools to make music either to entertain themselves or to irk their captors.
	The separatist system that saw people like Nelson Mandela and other black South African leaders jailed for dissidence gave rise to more protest music than ever before.
	And South Africa's anti-apartheid musicians were so influential that their songs were not only banned,

but they were also forced into exile. Mandela believes that these protest songs, together with those of non-South Africans, played a significant role in the collapse of apartheid and, indeed, his February 11,

1990 release from Robben Island.

"Artistes reach areas far beyond the reach of politicians. Art, especially entertainment and music, is understood by everybody, and lifts the spirits and the morale of those who hear it," Mandela admitted after his release.

South Africa's musicians like Hugh Masekela and the MirimaMakeba started the protest campaign back in the late '50s and early '60s after leaving South Africa for the United States, where they used music to highlight the desperate situation of their compatriots who were living under oppressive rule in the townships back home.

The Musical campaigns against apartheid intensified internationally throughout the '70s and '80s and saw the composition, production and performance of many a political song by musicians who had never even set foot in African but were inspired to join the anti-apartheid bandwagon- with some, like Paul Simon, even stirring controversy when he was accused of breaking the cultural boycott against South Africa by touring the country and utilizing contributions from local acts.

But the beat never stopped. In the UK, The Specials released Free Nelson Mandela while in the US, Gil Scott-Heron and Brian Jackson released protest classic Johannesburg off the album From South Africa to South Carolina. Little Steven (and the Disciples of Soul), together with Artists United Against Apartheid, conceived and produced Sun City Resort in one of South Africa's so-called homelands where international Musical concerts were frequently held.

Adopted from Sunday Nation December 8th 2013.

(a)	What	type	of	music	is the	author	referring	to in	the	passage	(1 1	mark)
												••••
(b) A	ccordi	ng to	the	passage	e what	were the	e contribut	ions o	f the	anti-apartheid	musicians.

(ii)	dissidence
(iii)	stirring controversy

2.BLOSSOMS OF THE SAVANNAH (25mks)

Read the following excerpt and answer the questions that follow

They were silent as they climbed the hill on their way back from Nasila to draw water .The water containers that they carried on their backs were now heavy. The straps that supported the containers pressed down their heads with a painful exhaustion.

As they walked, each one of them allowed her mind to fleeting roam the fanciful land of wishful thinking.

Resian thought how wonderful it would be, had she had a chance to enroll at the Egerton University and after graduation had a chance to work with her role model ,MinikeneNkoitoi ,the Emakererei at the sheep ranch that she managed .She imagined herself already there driving a large flock of sheep .And when she thought of sheep , her mind flew back to fifteen years or so earlier and **reminisced**the first time she saw a sheep.It was a childhood memory ,a memorable picture from the swirling scene around her which had been captured and preserved by her mind when she and Taiyo accompanied their father to the Nakuru Agricultural show.She could still see in her mind a group of big,docile tawny woolly animals that stood panting drowsily in a green pasture ,with the sun beaming down brightly from a clear blue sky .She had then admired the white long overcoats that the handlers wore.

Taiyo also thought of Emakererei .She would ask Joseph Parmuat , to assist her compose a song in her praise .She had already put words to a tune she had composed to ridicule the three women who she thought **collaborated** with men to oppress the women folk .They were Nasila's three blind mice who , she thought , did not seem to know that the world was changing .Those were the *enkasakutoni* who threatened to curse *intoiyenemengalana* and ensured they did not get husbands nor children;the midwife Enkaitoyoni who threatened to spy on the young women as they gave birth to ensure that any who was among intoiye-nemengelana had her status altered there and then;and the **dreaded** Enkamuratani,who will never tire of wielding her olmurunya**menacingly.**

QUESTIONS

1. place the excerpt in its immediate context. (4 marks)

2.	identify and illustrate two aspect of style in this excerpt (4marks)
3.	discuss two themes evident in this excerpt (4 marks)
4.	discuss one character trait of Resian and Taiyo in the excerpt (4 marks)
5.	The straps that supported the containers pressed down their heads with a painful exhaustion. Rewrite beginning: with (1 mark)

6. How does Resian's thoughts come to be fulfilled in future ?briefly explain(4marks)

7.Ex i.	plain the meaning of the following words as used in the excerpt. (4 marks) Reminisced.
ii.	Collaborated
iii.	Dreaded
iv.	Menacingly
3. Read the p	oem below and answer the questions that follow
The	earth does not get fat.
It ma	akes an end of those who wear the head plumes.
We s	shall die on the earth.
The	earth does not get fat. It makes an
end o	of those who act swiftly as heroes
Shall	I we die on the earth?

Listen O earth. We shall mourn because of you.

Listen O earth. We shall die on the earth?

The earth does not get fat. It makes and an end of chiefs.	
Shall we die on the earth?	
The earth does not get fat.	
It makes an end of the women chiefs	
Shall we die on the earth?	
The earth does not get fat. It makes an	
end of the royal women	
Shall we die on the earth?	
Listen O earth. We shall mourn because of you.	
Listen O earth. We shall die on the earth?	
The earth does not get fat. It makes an end of the beast	
Shall we die on the earth?	
Listen you who are asleep, who are	
left tightly closed in the land.	
Listen you who are asleep, who are	
Left tightly closed in the land.	
Shall we all sink into the earth?	
Listen O earth, the sun is setting tightly	
We shall all enter into the earth.	
(a). Identify the genre above	2
marks)	_

(b)	. Explain the functions of the above genre	(4 marks)
•		
(c).	. Explain the meaning of the words, "The earth does not get fat"	(2 marks)
(d)	. Identify two aspects of style and comment on their effectiveness	(6 marks)

(e). What is the speaker's attitude towards the subject. (2 marks) (f). ExplainTwo characteristics of the genre above (2 marks)

) Under	what circumstances is the genre likely to be performed and for what purpose?	(2 marks
<u> </u>	ite the following sentences according to the instructions after each	(3 marks)
(a) Y	You can do better than this. (Begin: This)	
(ii)	Having failed once, I do not want to fail again. (Begin. As	
(iii)	The teacher asked Kamau if he would go home that day or the following day. direct speech)	(Change

(b) <u>Using the verbs in brackets, replace the underlined words and phrases with correct phrasal verbs</u>

(3 marks)

(i)	The two friends met each other <u>accidentally</u>	(run) in town
(ii)	The city council askaries <u>demolished</u>	kiosks in the city
(iii)	Otieno <u>visited</u> us on his way to town (call)	
(c) <u>Comp</u>	lete each of the following sentences with the appropriate prepositions	(3 marks)
(i)	Many people think that manual labour is	their dignity
(ii)	The judge was prejudicedthe accused from the b	peginning.
(iii)	John has retiredprivate life.	
	ly one word which means the same as the underlined phrases in the follo	
<u>sentences</u>		(2 marks)
(i)	The man who broke into the house was finally arrested	
(ii)	The kitchen was filled with a <u>pleasant smell</u> from the day's recipe	
(e) <i>Explain</i>	the differences in meaning between the sentences in each of the pairs g	given below
(4 marks)		

I. II,	I saw parents in the school library I saw "parents" in the school library
••••	
I. II.	His brother who lives in Lamu is a mechanic His brother, who lives in Lamu, is a mechanic

Answer ALL questions in the spaces provided

1. The diagram shows an incomplete set-up for the laboratory preparation and collection of chlorine gas. Study it and answer the questions that follow.

- (a) Complete the set-up to show how dry chlorine gas is collected. (2mks)
- (b) Name substance Q.(1mk)
- 2) Give a reason why it is possible to separate nitric (V) acid from sulphuric (VI) acid which is used one of the reagents in the preparation of nitric (V) acid. (1mks)
- 3). Study the scheme below and answer the questions that follow

a) Identify solids W and K	(2mks)
b) Write an equation for the formation of Ca(OH) ₂ from solid K	(1mk)
c) Write an equation for the decomposition of solidW	(1mk)
4) The ions M^{3+} and N^{2-} have identical electronic arrangement. M is in period three	ee.
i) Write the electronic arrangement of	
M (1mk)	
N(1mk)	
ii) Write the formula of the compound formed when M and N combine. (1mk)	
5) Explain why there is a general increase in first ionization energy of elements in the periodic table from left to right.	n period three of
(1mk)	
6When excess magnesium ribbon is burned in air, two products are formed.	
i)identify the two products	
(2mk)	
ii) Write the two equations of the reactions that form the products in (i) above	(2mks)
7. a) State the Boyle's law. (1mk)	

b) Calculate the pressure required to volume of 4 liters. (2mks)	compress 12 liters of nitr	ogen gas at 1 atmosphere to give a
8. An element W of atomic number form a compound.	11 and an atom of elemen	t Y of atomic number 9 combine to
a) Write the formula of the compour	nd.	(1mk)
b) State the type of bond present in t	the compound formed.	(1mk)
c) Identify the type of structure form	ned.	(1mk)
9). A compound has the following c	omposition by mass:	
Carbon =40%, hydrogen=6.7%,	oxygen=53.3%	
Given that the relative molecular ma	ass of the compound is 180	0, determine its molecular formula
(C=12, H=1, O=16.0) (3mks)		
10). The melting point of phosphoro C. In terms of structure and bonding (3mks)		

11) Explain why the following substances conduct an electronic current.

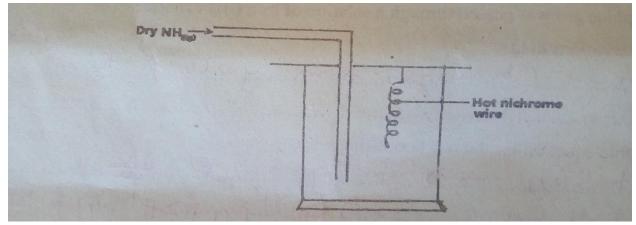

a)magnesium metal

(1mk)

b) Molten magnesium chloride.

(1mk)

12). The apparatus below was a set-up to show the catalytic oxidation of ammonia. Study the diagram and answer the questions that follow.

i)write an equation for the reaction that takes place in the in the gas jar. (1mk)

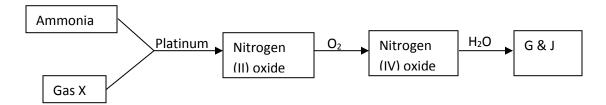

ii) Why is it necessary to have a hot nichrome wire in the gas jar? (1mk)

13). When 3.125g of a carbonate, MCO₃ was heated completely, the volume of carbon (IV) oxide evolved during the heating is 600cm³ at room temperature and pressure. Calculate the relative atomic mass of M. (Molar gas volume at r.t.p=24dm³) (3mks)

14). A sample of river water was suspected to contain zinc and sulphate ions. Describe how the
presence of zinc and sulphate ions can be established. (3mks)
15). Using dots (.) and crosses(x) to represent electrons, show bonding in carbon (II) oxide(2mks)
16). When a burning candle is put into a gas jar of sulphur (IV) oxide gas, it goes off but a
burning magnesium ribbon continues to burn. Explain these observations. (2mks)
17). Starting with copper metal, describe how pure copper (ii) carbonate can be prepared in the
laboratory (3mks)
10) Contact the above of the description of the contact of the cont
18). State the observations that would be made when chlorine gas is bubbled through potassium bromide solution. (1mk)
1) White the indicator for the resulting in (a) 1 (4.1)
b) Write the ionic equation for the reaction in (a) above (1mk)

19. An element M has two isotopes. $^{63}_{29}M$ And $^{65}_{29}M$. The relative atomic mass of the naturally occurring M is 63.55. Calculate the percentage abundance of each isotope. (3mks) 20. Distinguish between the terms deliquescent and efflorescent as used in chemistry. (2mks) 21 10 cm³ of concentrated sulphuric(vi) acid was diluted to 100cm³. 10 cm³ of the resulting solution was neutralized by 36cm³ of 0.1M sodium hydroxide solution. Determine the mass of the sulphuric (vi) acid that was in the concentrated acid. (S=32, H=1, O=16) (3mks) 22. a) Explain why potassium carbonate cannot be manufactured by the Solvay process. (1mk) b) Write the equation for the reaction that takes place in the Solvay tower (Carbonator) (1mk) c) State one commercial use of soda-ash (1mk) 23. What name is given to each of the following?

- a) Ability of an element to attract electrons (1mk)
- b) Types of forces that holds the atoms of Neon together (1mk)
- 24. Zinc sulphate was prepared by adding excess Zinc oxide to dilute sulphuric (vi) acid in a beaker. The mixture was wormed until no more effervescence occurred. Excess Zinc oxide was filtered and the filtrate evapourated and then cooled. Fine crystals were obtained.
- a) Write an equation for the above reaction (1mk)
- b) Why was excess zinc oxide used (1mk)
- c) How would you know that the reaction is over (1mk)
- 25. Hydrogen sulphide was passed through a solution of Iron (III) chloride
- i) State the observation made (1mk)
- ii) Write an ionic equation for the reaction that took place (1mk)
- 26. Study the flow chart below and answer the questions that follow

i. Identify gas X (1mk)

ii.	Write an equation for the reaction between ammonia and gas X	(1mk)
iii.	Write an equation to show the formation of G and J	(1mk)
27 All	apparatus used during preparation nitric (V) acid are made of glass.	. Give a reason. (1mks)
28. Su mk2)	lphur (IV) oxide gas was bubbled through acidified potassium chron Iron (III) Sulphate solution chromate. Explain the observations ma (i) With Potassium Chromate (VI) solution.	
mks)	(ii) Iron (III) Sulphate solution	(1 ½
29.3.2	$2g$ of hydrated Sodium Sulphate, $Na_2SO_4^{\circ}X$ H_2O were heated to a condetermine the value of X in the formula. ($Na=23$, $S=32$, $O=16$, (2 mks)	_
	cm ³ of 2 M Sulphuric (IV) acid reacted completely with 3.2 g of Wate the R.A.M of W in the formula WOH. (3 mks)	VOH (O=16, H=1)

e below shows part of non-luminous flame.	
A A	
(i) Describe an experiment that would confirm that region labeled A	is not
for heating.	(1 1/2
(ii) Explain why luminous flame produce light and soot.	(1 ½
	(i) Describe an experiment that would confirm that region labeled A for heating.

CHEMISTRY

PAPER 2.

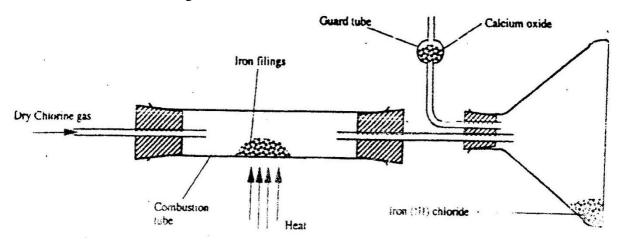

TIME:2HOURS

Answer ALL questions in the spaces provided.

1) a) Give the name of reagent which when reacted with concentrated hydrochloric acid produce chlorine gas.

(1mk)

b) A student set out to prepare iron III chloride using the apparatus shown in the diagram below.

- i) Explain why:
 - I. It is necessary to pass chlorine gas through the apparatus before heating begins.

(1mk)

II Calcium oxide would be preferred to calcium chloride in the guard tube.

(2mk)

ii) What property of iron (III) chloride makes it possible to be collected as shown in the diagram?

(1mk)

iii)	Write an equation for one chemical reaction that took place in the guard tube.
(2mk)	

iv) The total mass of iron (III) chloride formed was found to be 0.5g.

Calculate the volume of chlorine gas the reacted with iron.

(Fe -= 56.0, Cl = 35.5 and Molar gas volume at 298K is 24,000cm (2mks)

- c) When hydrogen sulphide gas was passed through a solution of iron (III) chloride, the following observation were made:
 - i) The colour of the solution changed from reddish brown to green and
 - ii) a yellow solid was deposit. Explain these observations. (2mks)
- d) One of the industrial uses of chlorine gas is manufacture of Hydrochloric acid.
 - (i) Give one source of chlorine gas.

(1 mk)

2.Study the table below and answer the questions that follow.

Element	A	В	С	D	Е	F	G
Atomic radius (nm)	0.156	0.136	0.125	0.110	0.110	0.104	0.099
Ionic radius (nm)	0.095	0.065	0.050	-	-	0.184	0.181
1 st Ionization energy KJ/mol	492	743	790	791	1060	1063	12.54
Mpt (°C)	97.8	650	660	1410	44.2	119	-101
Atomic number	11	12	13	14	15	16	17

	I	Explain why
		(i) A has a larger atomic radius than its ionic radius?
		(1 mk)
		(ii) G has a smaller atomic radius than its ionic radius?
		(1 mk)
	II	Comment on the trend of melting points from A to C. Explain.
		(2 mks)
	III	What is the general trend of the 1^{st} ionization energies for elements $A - F$.
Explain?		(2 mk)
	IV	Explain why D has the highest melting point.
(2 mk)		
41	(b)	The grid below is a section of the periodic table. The letters do not represent the
actual		symbols of the elements. Use it to answer the questions that follow.
	Y	M N

i) How does electro negativity vary from N to P? Explain (2 mks)

K

S

R

O

- ii) Give the formula of the compound formed between L and P. (1 mk)
- ii) An oxide of Y was dissolved in water to form a solution. How would you distinguish between this solution and a solution made by dissolving an oxide of S in water. Explain.

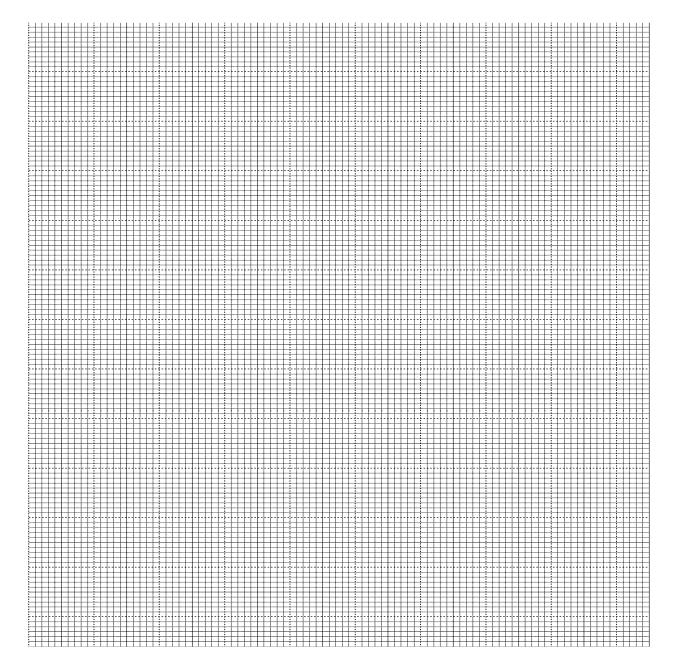

(2 mks

3. (a) The table below gives formulae and volumes occupied by 1g of some gases at STP, study

it and answer the questions that follow:

Formulae of gas	Ne	C ₂ H ₂	Ar	NO ₂	SO_2	SO ₃
Relative molecular mass	20	26	40	46	64	80
Volume occupied by 1g (cm ³)	1120	861	560	485	350	280

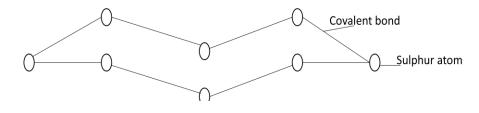

i). Plot a graph of volume of gas (Y-axis) against the relative molecular mass (3mks)

ii). Use the graph to predict the volume occupied by 1g of Carbon (ii) oxide and use your answer to calculate the molar gas volume at STP (C = 12, 0 = 16) (3 mks)

	b) i)	State Graham's law of diffusion?
(1mk)		

- ii) Apart from density or mass of a gas state one other factor that affects the rate of diffusion(lmk)
- iii) Calculate the relative molecular mass of gas V (RMM of X = 34) Gas V takes 60 seconds to diffuse through a porous plug. A gas X diffuses through the same plug in 90 second (2mks)
- 4). Study the structure below and answer questions that follow

- (a) *What* observation is made when the molecule above is heated to a temperature of 113°C? (2mks)
- (b) *Write an equation* for the reaction of atom of the above structure with hydrogen. (2mk)

II. Study the scheme below and answer questions that follow.

(a)

i) Name

Gas \boldsymbol{K} (1mk)

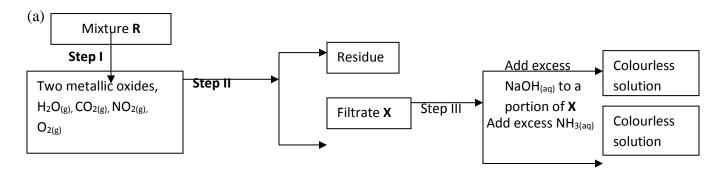

Gas M (1mk)

ii) State the observation made in

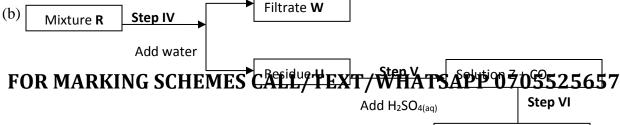

iii) *State the conditions* necessary for step II to occur. (2mks)

(b) Write an equation to show how pollution effect of sulphur (IV) oxide is controlled in contact process. (2mks)

5. The flow charts below show an analysis of a mixture \mathbf{R} that contains two salts. Study the analysis and answer the questions that follow: -

- (i) State:-
 - (I) The condition in **step I** (1 Mark)
 - (II) The process in **step II** (1 Mark)
- (ii) A small portion of mixture R is added to dilute nitric (V) acid in a test-tube. What would be observed?(1 Mark)
- (iii) Write an equation for the reaction between the cation in filtrate \mathbf{X} and sodium hydroxide Solution (1 Mark)
 - (iv) Explain how water vapour in **step I** could be identified(1 Mark)

Add excess NaOH(20)

State and explain the conclusion that can be made from **step IV** only (2 Mark)

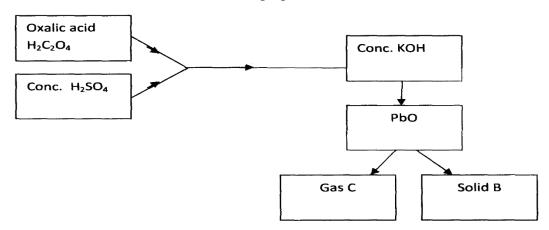

Name the anion present in residue U. Explain

(2 Mark)

(iii) From the flow chart in (a) and (b);Write the formulae of cations present in mixture R

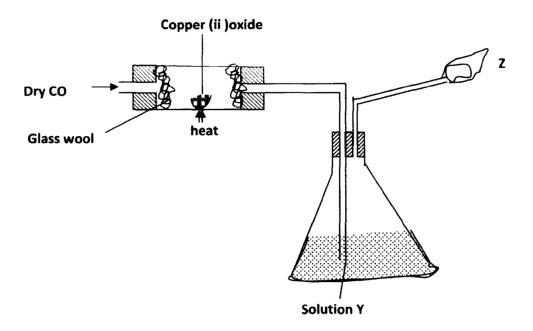

(2 Mark)

6. a) The flow chart below shows the preparation of carbon (II) oxide and its reactions

i.) Name the type of reaction taking place between $H_2C_20_4$ and Conc. H_2S0_4 (lmk)

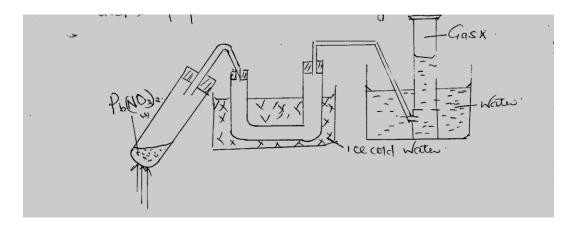

- ii). Why is gaseous mixture passed through Conc. KOH?(lmk)
 - iii). Write an equation for the production of B and C (lmk)
- b). The figure below is used to investigate the effect of carbon (ii) oxide on copper(ii) oxide. Study it and answer the questions that follow Copper (ii) oxide

- i) What will be observed in the combustion tube at the end of the experiment? (lmk)
- ii) Identify Y and give its use (2mks)

- iii) Why is it necessary to burn the excess gas at Z (2mks)
- iv) Write the equation for the reaction taking place at Z (lmk)
- v) What is the use of glass wool? (lmk)
- vi Give two uses of carbon (II) oxide (2mks)

7. The diagram below represents a set up that can be used to prepare and collect nitrogen (iv) oxide.

- a. Write a chemical equation for the reaction that takes place in the boiling tube. (1 mk)
- b. Name gas x. (1 mk)

c.	What observations are made on final residue in the boiling after reaction on heating and cooling the residue. $(1mk)$
d.	When a piece of burning magnesium is lowered into a gas jar containing gas x it continues to burn. i. Explain the observation 2mks
	ii. Write a chemical equation for the reaction.(1mk)
e.	What precaution should be taken when preparing gas x
f.	Explain why it is not advisable to use copper (II) nitrate instead of lead (II) nitrate. (1mk)
g.	What property of gas x makes it possible to be collected by the method above.(1mk)
h.	State one use of gas x ?. (1 mk)

FORM 3 END TERM 3 EXAMS

GEOGRAPHY EXAM

PAPER 1 TIME:

INSTRUCTIONS.

Answer all the questions in the spaces provided.

1. What is desertification?

(2mks)

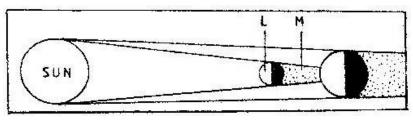

(3mks)

b. State three negative effects of desertification.

2. Describe the solar system.

(2mks)

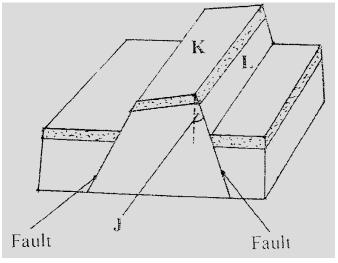

b. Use the diagram below to answer the questions that follow.

- i. What type of an eclipse is represented by the diagram? (1mk)
- ii. Name the features marked L and M. (2mks)
- 3. Identify two causes of earth movement.

(2mks)

b. The diagram below shows some features formed as result of faulting.

i. (1mk)

Identify the angle marked J.

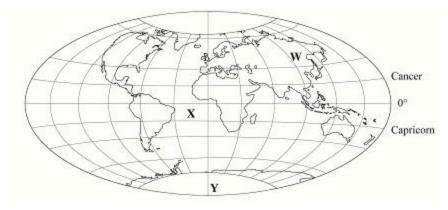

ii. Identify the features marked K and L.

(2mks)

- 4. Apart from water vapour, name two other substances that are suspended in the atmosphere. (2mks)
- b. Give two features that are considered when classifying clouds. (2mks)
- iii. Name one type of cloud that give rise to rainfall in the tropical regions. (1mk)
- 5. Give three causes of earthquakes. (3mks)
- b. Name two major earthquake zones of the world. (2mks) **SECTION B**

Answer question 6 and any other two questions from this section.

6.		udy the map of Kitale 1:50,000 (sheet 75/3) provided and llowing questions.	l answer the
	a.	Identify two human made features found at the grid squ	are 3319.
			(2mks)
iv	·	Identify the altitude of the highest point in the area cover	ered by the map. (2mks)
V		What is the magnetic variation of the map?	(1mk)
		i. Measure the distance of the dry weather road (C640) the	
		at point M(345142) to the junction at point N (416201)	
		in kilometers. (2mks)	
		ii. Draw a square 10cm by 10cm to represent the area er	nclosed by easting
		36 and 46 and northings 13 and 23. (1mk)	, .
		On the square mark and name the following.	(4mks)
		i. Forest	,
		ii. Plantation	
		iii. River Naigameget	
		iv. Dry weather road (C640)	
	c.	Describe the drainage of the area covered by the map. (5mks)
	d.	Identify two social services offered in Kitale municipali	ty. (2mks)
	e.	Citing evidence from the map explain three factors that	favour
		agricultural activities.	(6mks)
7.	Οι	utline two factors that influence the development of drain	age patterns.
			(2mks)
		tline five characteristics of a river in its youthful stage. scribe the following processes of river erosion.	(5mks)
i. Attrition (2mks)			
ii. Corrosion (4mks			(4mks)
c.	Exp	plain three negative effects of rivers to the human environ	nment.
			(6mks)
d.	Yo	ur class is planning to carry out a field study of a river in	its old stage.
i	•	State three reasons why it would be necessary to pre-vis	sit the area of
		study.	(3mks)
ii		State three activities you would carry out to determine v	vhy deposition
		occurs at this stage.	(3mks)
	8. Name the first two planets of the solar system. (2mks)		
b.	Exp	plain the origin of the earth according to the Nebula clou	=
			(8mks)
c.	Use	e the map below to answer questions (c) (i)	

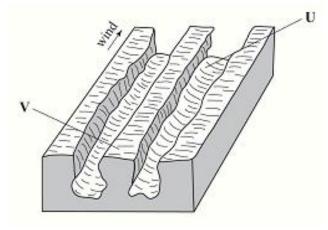

i. Name:

1. Ivanic.		
The continent marked W.	(1mk)	
The ocean marked X	(1mk)	
The line of longitude marked Y.	(1mk)	
ii. Give two reasons why the earth has a spherical shape.	(4mks)	
iii. State four effects of the rotation of the earth on its axis.	(4mks)	
d. Describe the structure of the earth's crust.		

9. Name two major deserts found in Africa. (2mks)

ii. The diagram below represents features resulting from wind erosion in a desert. Use it to answer question a. (ii).

- a. Name the features marked U and V. (2mks)
- b. Describe three processes through which wind transports its load.

(6mks)

- c. Using a well labeled diagram, describe how a barchans is formed. (7mks)
- d. Explain four ways in which desert features are significance to human activities. (8mks)
- 10. Name three types of faults. (3mks)
- ii. Apart from compressional forces explain two other processes that may

cause faulting. (4mks)

- b. With the aid of diagrams, describe how compression forces, may have led to the formation of Great Rift Valley. (8mks)
- c. Explain five ways in which faulting is of significance to human activities. (10mks)

FORM 3 END TERM 3 EXAMS

Name:	Adm No: GEOGRAF PAPER 2 TIME:	
INSTRUCTI	ONS.	
Answer all th	ne questions in the spaces provided	d.
1. a) Nam	e three mining methods.	(3mks)
b) State	e three conditions that are necessary	for the formation of petroleum. (3mks)
2 a) List t	two factors that determine the distril	bution of forests in Kenya
2. a) List (two factors that actermine the distric	(2mks)
b) Give	e three economic uses of mangrove f	` ,
	agram below shows the occurrence of answer question (a).	of petroleum in the earth's crust.
	The state of the s	

(3mks)

a) Name the substance in the area labeled L, M and N.

4. Name five uses of soda ash.

(5mk

- 5. State five factors that have led to the reduction of the area under forest on the slopes of Mt. Kenya. (5mks)
- 6. Study the photograph below and use it to answer question (a)

- i. What evidence shows that this is a ground general view photograph? (2mks)
- ii. Draw a rectangle measuring 12cm by 8 cm.

(1mk)

- iii. On the rectangle sketch and label the following features shown on the photographs. (5mks)
 - Planted crops
 - Tree stumps
 - Forest
 - Felled trees
 - The sky

- iv. Describe the characteristics of the forest shown on the photograph. (5mks)
- b) Explain four measures being taken by the government of Kenya to control human encroachment on forested areas. (8mks)
- c) Give the differences between softwood forests in Kenya and Canada under the following sub-headings.

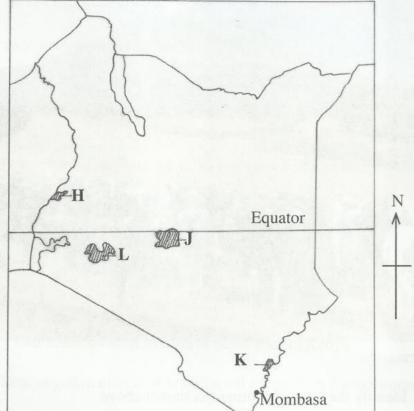

i. Tree harvesting (2mks

ii. Marketing of forest products. (2

d) Explain four problems facing forestry in Kenya. (8mks

e) What is Agro forestry? (2mks)

- ii) Give four reasons why Agro forestry is encouraged in Kenya. (4mks)
- iii) Use the map of Kenya below to answer questions.

FOR MA

0705525657

- a) Name the forest reserves marked H, J and K. (3mks)
- b) Explain four factors that favour the growth of natural forest in the area marked L. (8mks)

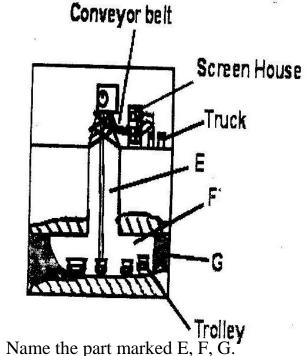

iv) Explain two benefits of petroleum mining to economies of Middle East countries. (2mks)

7. The table below shows the quantities of minerals produced in Kenya in tones between year 2001 and 2005. Use it to answer questions a(i) and (II) Source economic survey 2006

Mineral/Year	2001	2002	2003	2004	2005
Soda ash	297,789	304, 110	352, 560	353, 835	360, 161
Fluorspar	11,885	85,015	80, 201	117, 986	26, 595
Salt	5,664	18,848	21,199	31,139	26,595
Others	6,093	7,000	4,971	6,315	8,972

- i. Calculate the average annual production of soda ash over the 5 years period. (1 mk)
- ii. Calculate the total mineral production for the year 2003. (1mk)

b) The diagram below shows shaft mining.

Name the part marked E, F, G. i.

(3mks)

- State three problems associated with shaft mining. (3mks) ii.
- c) Explain four ways in which gold mining has contributed to the economy of South Africa. (8mks)
- d) Explain three negative effects of mining on the environment.(6mks)

FORM 3 END TERM 3 EXAMS

NAME:	ADM NO:CLASS: .

HISTORY AND GOVERNMENT

SECTION A

Answer all the questions in these section

- 1. Name two southern cushites that inhabited Kenya during the pre-colonial period (2mks)
- 2. Give one way in which iron working helped in migration of Kenyan communities (1mk)
- 3. Apart from the Akamba name two other Kenyan community that participated in th long distance trade. (2mks)
- 4. Identify two benefits of dual citizenship (2mks)
- 5. Give two characteristics of the Kenyan government (2mks)
- 6. Outline one early mean of communication used by the Kenyan communities in pre-colonial period (1mk)
- 7. Give two strategic reasons that led to occupation of Kenya by the British (2mks)
- 8. Name one colonial governor who encouraged settlers farming in Kenya (1mk)
- 9. What was the main recommendations of Fraser commission of 1908(1mk)
- 10. Give the main reason that that led tom formation of early political parties in Kenyaup to 1939. (1mk)
- 11. Identify the main feature of Kenyans first independent parliament (1mk)
- 12. What was the main reason for convening the 2nd Lancaster conference in 1962(1mk)
- 13. Define the term democracy (1mk)
- 14. Give two social causes of disunity in Kenyatoday (2mks)
- 15. Identify the most significant aspect of the Nandi social organization (1mk)
- 16. Give two reasons that may lead to deprivation of freedom of expression to a Kenyan citizen (2mks)
- 17. Explain two recommendations of Littleton constitution of 1954(2mks)

SECTION B (45MKS)

Answer any three questions from this section

- 18. a) Identify three main economic activities of the Luo during the precolonial Kenya (3mks)
 - b) Describe the political organization of the akamba in 19thcentury (12mks)
- 19. a) Give the characteristic of early political organization in Kenya(3mks)
- b) Explain six factors which promoted African political organization in Kenya after 1945(12mks)
- 20a) Outline the terms of Devonshire white paper (5mks)
- b) Describe the method used by the colonial government to acquire labour for settlers in Kenya (10mks)
- 21a) Identify five merits of democracy (5mks)
 - b) Explain five principles of democracy (10mks)

SECTION C (30MARKS)

Answer any two questions

- 22a) identify the factors that should be considered while drafting the constitution of a country (5mks)
 - b) Describe the stages of constitution making process in Kenya (12mks)
- 23a) give three ways in which education promotes national unity in Kenya (3mks)
- b) Discuss the procedures followed while solving conflicts through the mediation method (12mks0
- 24a) what were the main objectives of local native council in Kenya during the colonial period (3mks)
 - b) Describe the structure of central government in colonial Kenya (12mks)

HISTORY

- 1. Give one reason why History is referred to as a science. (1mk)
- 2. Outline two classes of Monarchial government (2mks)
- 3. Give one advantage of Oral traditions as a source of information on History and government. (1mk)
- 4. Outline two characteristics of the Homo habilis. (2mks)
- 5. Give one disadvantage of hunting in groups during the Stone Age period. (1mk)
- 6. Definition of Agrarian Revolution(1mk)
- 7. One criteria that used to classify trade. (1mks)
- 8. Name one type of sailing ship invented by the Portuguese. (1mk)
- 9. Two reasons for space exploration.
- 10. Identify two early forms of communication used by early man. (2mks)
- 11. Two factors that facilitated the spread of Iron working in Africa. (2mks)
- 12. Two political effects of the Industrial Revolution in Europe. (2mks)
- 13. State two roles played by missionaries in the process of colonization. (2mks)
- 14. First president of the FRELIMO Movement. (1mk)
- 15. Name one method of administration used for to ruler Kenya during the colonial period. (1mks)
- 16. Give one function of Athens as an urban center. .
- 17. Name two Cities that developed along East African cost. (2mks).

SECTION B (45mks) Answer any three Questions from this section.

- 18. a) Identify five advantages of the Enclosure System in Britain during the Agrarian Revolution. (5mks)
 - b) Explain five factors that facilitated the Science Revolution in Europe. (10mks)

19.

(a) Outline five factors that facilitated the development of the Trans – Saharan trade. (3mks)

- (b) Explain five reasons for the decline of the Trans Atlantic trade. (10mks)
- 20. (a) give three reasons why attainment of independence by Mozambique tool long? (3mks)
- (b) Factors for the emergence of African Nationalism in South Africa. (12mks)
- 21. (a) Reasons why Lewanika collaborated . (3mks)
- (b) Factors that enable SamoriToure to resist the French for long. (12mks)

SECTION C (30mks) Answer any two questions in this section.

- 22. (a) Name any three early urban center that developed in North Africa. (3mks)
- b) Explain the factors that facilitated the growth of Athens as an early urban center (12mks)
- 23. (a) State five factord that led to the decline of Asante Kingdom. (5mks)
- b) How was the Asante Empire Organized politically in the 19thcentury. (10mks)
- 24. (a) State five reasons why the British employed direct rule in Zimbabwe. (5mks)
- b) Explain the effects of direct rule in Zimbabwe. (10mks)

PAPER 1

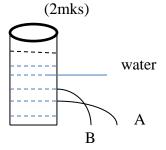

2 HOURS FORM 3

INSTRUCTIONS TO THE CANDIDATES

- Write your name, Adm number and dates on the spaces provided above clearly
- The papers consist of section and b as follows. Section a = 25mks, section b 75mks
- All questions must be answered on the spaces left/provided after each.
- All working must be clearly shown and numerical answers given in correct SI units.
- Mathematical tables and silent electronic calculators may be used.

SECTION A (25 MARKS)

- 1. State any two forces that acts between two objects not in contact. (2mks)
- 2. State two physical characteristics that change when a metal cube is heated. (2mks)
- 3. The diagram below shows jets from two holes at the side of a tank filled with water. Explain why Jet A is longer than B

4. State the law of conservation of linear momentum (1mk)

5. State physical quantities whose SI units are shown below. (2mks)

NM

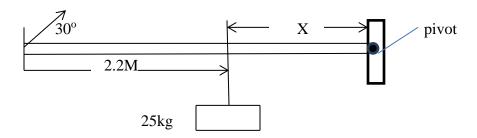

Kgm/s

 M^3/s

J/kg K

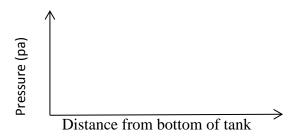

6. The system below was used to balance a mass of 25kg fixed at a distance of Xm from the pivot. Find the value of X to 2.d.p.

(3mks)

7. State two circumstances under which an object floats on a liquid. (2mks)

8. In the graph below sketch the graph of pressure experienced by a ball moving from the bottom of a tank of water towards the surface. (3mks)

9. Two springs A and B. have the same length and same diameter. When the same object was suspended from the bottom of each spring separately, there was a difference in their extensions. State two factors that may have caused the difference extensions (2mks)

10. A road surface offers friction of 32,000N, to a vehicle of mass 2500kg running on it. Find the coefficient of kinetic friction of the road. Explain if the value obtained will change when it rain. (3mks)

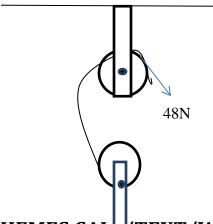

11. In a laboratory experiment, it was realized that two different gases of equal volume diffused across a chamber at different rates. What may have caused the difference? (2mks)

12. State one physical change that affects the speed of sound in air. 1mks

SECTION B. (55MKS)

13. (a) Outline the order of energy transformations when lighting a match box (3mks)

(b) The system below was used to lift a load of mass 240kg in a warehouse using a force of 48N.

240kg

(ii) Efficiency (3mks)

14. (a) Explain how unusual expansion of water favours aquatic life. (4mks)

(b) The number of particles per mm³ of substances A, B and C are given in the table below.

substance	No of particles per mm ³
A	3.0×10^7
В	4.5×10^{28}

(6.8×10^{12}
(i)	Identify the states of matter of the substances (3mks)
(ii	Explain how the number of particles of B will change when heated. (3mks)
) State the factors that determine pressure exerted by a wooden block resting on a ble surface. (3mks)
bl	A bullet of mass 20g travelling at a velocity of 600m/s hits a suspended wooden ock of mass 400g. The bullet gets stuck inside the wooden block and the two bodies ove together in one direction. If the string holding the wooden block is not cut; Find The common velocity of the bullet and wooden block. (3mks)

(ii)	Maximum height the two bodies reach (3mks)
(iii)	The time taken by the two bodies to reach maximum height (3mks)
	State two characteristics of turbulent flow. mks)
(iii)	Give three examples of Bernoulli's effect in air. (3mks)

	sectiona 5m/s ⁻¹ . (i) The	a liquid flows in a pipe of cross sectional area 60cm ² has a constriction of cross al area of 18cm ² of one point. The velocity of the liquid at the construction is Find velocity of liquid in the wider section mks)
	(ii) The (2m	volume of liquid in litres that passes through the construction in one hour.
17.	20m/s.	e is projected vertically upwards from the top of a building at a velocity of If the stone took5.5 seconds to reach the bottom of the building. Find; After how long did the stone start the down ward journey (3mks)
	(ii)	Height of the building. (3mks)

TIME: 2 HOURS

SECTION A: (25 MARKS)

Answer all the questions in this section in the spaces provided.

1. Figure 1 below shows an object infront of plane mirror.

Figure 1

Sketch image of object using mirror shown.

(1mk)

2. Figure 2 below shows an object infront of concave mirror and it's image.

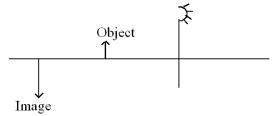

Figure 2

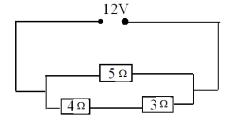

Locate position of its principal focus.

(2mks)

3. State the use of Manganese (IV) oxide in dry cell.

(1mk)

4. Use figure 3 below to answer following questions.

Determine (a) Total resistance.	(3mks)
(b) Potential difference across 4Ω resistor.	(3mks)
5. Figure 4 shows conductor carrying current in magnetic field and moves in direction sho	own.
X X Y Figure 4	
Identify polarities X and Y.	(2mks)
6. A man standing between two parallel walls fires a gun. He hears an echo after 1.5	
seconds and another one after 2.5 seconds and yet another one after 4 seconds. Determine	the
separation of the walls. (Take velocity of sound 340 m/s)	
7. A student shouts and hears an echo after 0.6 seconds. If the velocity of sound is 330m Calculate the distance between student and reflecting surface.	n/s. (3mks)

8. Figure 6 shows water waves moving towards barrier. Show the emergence of the rewards waves	eflected
Figure 6	
9. (a) Define refractive index.	(1mk)
(b) The critical angle of a material is 43.2° . Determine the refractive index of that material.	(2mks)
(b)A battery of emf E drives a current of 0.25A when connected to 5.5W resistor. Whe 5.5W resistor is replaced with 2.5W resistor, the current flowing becomes 0.5A. Firememf E and the internal resistance r of the battery.	n the nd the (3 marks)
10.Define the term sulphation as applied to lead acid cells.	(1 mark)
SECTION: B(55MARKS)	
ANSWER ALL QUESTIONS IN THIS SECTION	
11. (a) An uncharged metal rod brought close but not touching the cap of a	a charged

electroscope causes a decrease in the divergence of the leaf. Explain the observation.

(1mark)

- (b) In experiment to investigate factors affecting capacitance of a capacitor, a student increased the area of the plates and decreased the separation of the plates. Explain the effect on the capacitance when
 - (i) the area of plates increased (1 mark)
- (ii) the distance of the separation of the plates decreased (1 mark)
- (c) Figure 7 illustrates a method of charging a metal sphere.

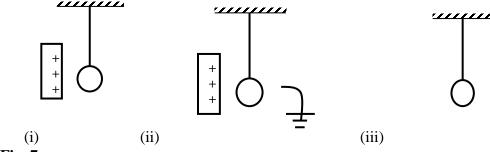

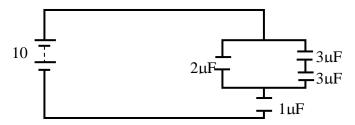

Fig. 7.

- (i) Name the method of charging shown in fig 8.(1mar(ii) Indicate the final charge on the sphere in fig 8. (1 mark)
- (d) Figure 9 shows an arrangement of capacitors connected to a 10V d.c supply.

Determine

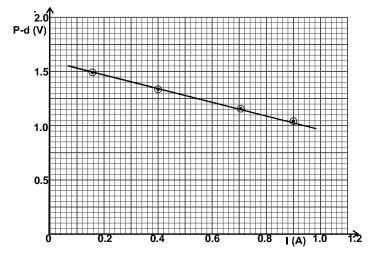

- (i) the combined capacitance (2 marks)
- (ii) the total charge in the circuit (1 mark)

(iii) the total energy stored in the circuit. (2marks)

12 (a) Distinguish between e.mf. and terminal voltage of a battery.

(2 marks)

(b) The graph in figure 8 shows the variation of potential difference V against current I for a cell when current is drawn from it.

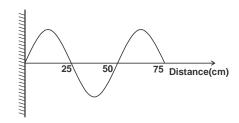

(i) From the graph determine (a)The e.m.f of the cell. marks)

(2

(b)The internal resistance of the cell. (4marks)

(c)on the space provided below, draw a circuit that could be used to obtain the results represented by the graph.(2 marks)

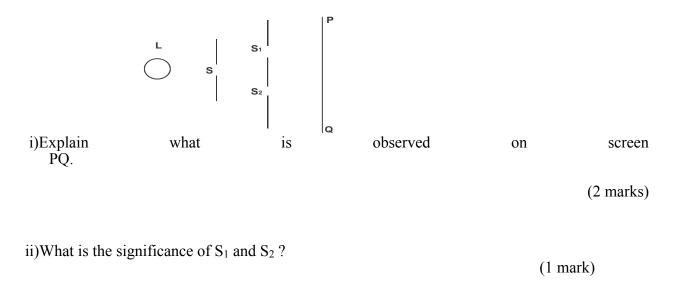

13.(a)Figure 9 is an illustration of a wave pattern.

i) State with reason the type of wave shown.

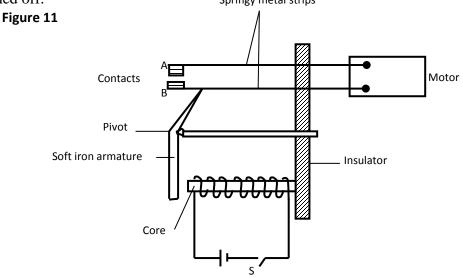

(2 marks)

- ii)Determine the wavelength of the wave. (1 mark)
- iii)Calculate the frequency of the wave given that the speed of the wave is 9m/s. (3 marks)
- **b)** Figure 10 show s monochromatic source of light L behind a barrier with a single slit S placedbehind another barrier with two identical slits S_1 and S_2 . A screen PQ is placed in position as shown.

14.Figure 11 shows an electromagnetic relay being used to switch an electric motor on and off. The electromagnet consists of a coil of wire wrapped around a core. The motor in figure is switched off.

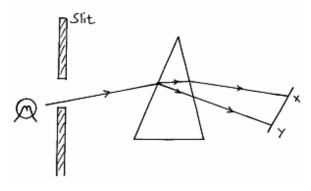

Springy metal strips

- (a) Suggest suitable material for the core. (1mark)
- (b)What happens to the core when switch S is closed? (2marks)

(c)Why do the contacts	A and B close	when the swite	ch S is closed.
(2marks)			

- (d)When the switch S is opened, what will happen to;
 - (i) The core (1mark)
 - (ii) Soft iron armature. (1mark)
 - (b) Give **one** other application of an electromagnet. (1mark)
 - (c) State **two** ways in which an electromagnet could be made more powerful. (2marks)
- 15. Figure 12 below shows a narrow beam of white light onto a glass prism.

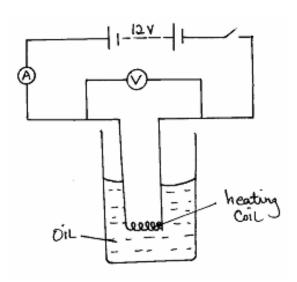

(i) What is the name of the phenomenon represented in the diagram? (1mk)

(iii)Name the colour at **X** and **Y**. Give a reason. (3mks)

(iii)What is the purpose of the slit? (1mk)

16. The figure 4 shows a circuit with a coil used to warm oil in a beaker.

Figure 4

- (a) State the Ohm's Law. (1mk)
- (b) (i). Explain how heat is produced in the coil. (2mks)

(ii)Given that the reading of the ammeter is 2.5A, determine the resistance of the coil. (3mks
(iii).How much heat is produced in the coil in a minute? (3mks)
(iv). Give two changes that can be made in the set-up in order to produce more heat per minute. (2mks)
(iii)How much heat is produced in the coil in a minute? (3marks)
